## Statement of Aims

The World Trade Review (WTR) has been established at the initiative of the Secretariat of the World Trade Organization (WTO) in close cooperation with Cambridge University Press. The WTR is an independent, multi-disciplinary journal that aims to deepen understanding of issues facing the international trading system through critical analysis and constructive debate.

The journal welcomes manuscripts written from economic, legal and inter-disciplinary perspectives on issues of relevance to the multilateral trading system. A rigorous peer review process assures that material accepted for publication meets high standards in terms of theoretical and methodological rigour. Papers written in a manner that makes them accessible to the wider public and to government officials engaged in policy discourse and decision-making are particularly welcome. To further stimulate debate, the journal encourages the submission of short articles or notes commenting on published papers. These pieces are also subject to peer review in order to ensure their quality.

The policy of the journal is determined by the Editor and the members of the Editorial Board, in conjunction with Cambridge University Press. The content of each issue is based on a proposal by the Editor, which is reviewed by members of the Board. To be accepted, a manuscript must be approved by a majority of the Board members.

Opinions and other material contained in the WTR are not attributable to Members of the WTO, to the WTO Secretariat, to members of the Editorial Board or to the Editor, nor should they be taken as reflecting the views of any of the aforementioned groups or individuals.

## Submission of articles

The World Trade Review invites authors to submit original manuscripts on all aspects of issues related to the multilateral trading system. Short articles or notes commenting on previously published articles are also welcome. It is assumed that the submission of a manuscript to the WTR signals that it has not been, and will not be, submitted elsewhere at the same time. Papers scheduled for future publication in book form will be considered, *provided* they would appear first in the WTR.

Full guidelines for contributors regarding the length, organization and reference format of submissions are available on the journal's homepage at the Cambridge University Press web site <journals.cambridge.org/wtr>.

## Letters to the Editor

The World Trade Review welcomes letters containing substantive comments on published material. Letters should be submitted via the website above. Letters selected for publication are subject to editing.

## Books for review

Books for review in the journal should be mailed to:
