Law

Books and Journals from Cambridge University Press

Cambridge have an established and ever expanding academic law list in public and private law subjects crossing books and journals aimed at a global readership.

Particular strengths lie in international law, human rights and transitional justice, transnational and comparative law, jurisprudence, and legal history.

We also publish a growing number of titles with an inter-disciplinary and socio-legal approach.

Politics & International Relations

Books and Journals from
Cambridge University Press

The politics list at Cambridge is one of unparalleled quality and range.

Our books list routinely tops surveys of political scientists for the calibre of its output, which includes field-defining series such as Cambridge Studies in Comparative Politics, Cambridge Studies in International Relations and Cambridge Texts in the History of Political Thought.

American Political Science Review and *International Organization* are widely recognised as the leading generalist journals in political science and international relations, while the likes of *British Journal of Political Science* and *World Politics* remain essential reading for researchers worldwide.

For students and scholars across the breadth of political enquiry, Cambridge is the resource of choice.

FIRMIN DEBRABANDER

LIFE AFTER PRIVACY

RECLAIMING DEMOCRACY IN A
SURVEILLANCE SOCIETY

“ Does access to privacy make us better at having creative or provocative thoughts? Or do we instead create and provoke in concert with others and with respect to the world around us? Does privacy help us avoid undue manipulation and propaganda, or are we unavoidably affected by such things, even when we’re alone? In this book, DeBrabander investigates theories of privacy and compares them to the realities of living in the age of surveillance and AI nudges. The bad news is, we might not have privacy anymore; the good news is, we might not need it. ”

Cathy O’Neil, author of *Weapons of Math Destruction*
