## WHAT'S THE BEST HANDWASH/SCRUB? HANDS UP OR HANDS DOWN IT'S

# HIBICLENS<sup>®</sup>

(CHLORHEXIDINE GLUCONATE)

It is well established that handwashing is the most important single procedure in preventing transmission of hospital-acquired infections. HIBICLENS, the only proven antiseptic/antimicrobial, is the best agent available for both personnel handwashing and surgical scrubbing. HIBICLENS

provides the most immediate and prolonged protection against infection, with the best bactericidal "kill rate." And to encourage skin cleansing among hospital personnel, HIBICLENS offers cosmetic acceptability coupled with an excellent safety profile. Gentle to the skin, HIBICLENS is virtually

nonirritating and nonsensitizing, with a low potential for toxicity.

Available as both a liquid and impregnated in a disposable Sponge/Brush, HIBICLENS remains the single most effective antiseptic/antimicrobial skin cleanser for use throughout the hospital.

**Publisher:** *Infection Control* (ISSN-0195-9417) is published monthly by SLACK Incorporated, 6900 Grove Road, Thorofare, New Jersey 08086. Telephone: Thorofare (609) 848-1000.

**Copyright 1984:** All rights reserved. No part of this publication may be reproduced without written permission from the publisher.

**Subscriptions:** Subscription requests should be addressed to the publisher (except Japan). In Japan, contact Woodbell Scope Incorporated, 11-11, Shoto 2-chrome, Shibuya-Ku, Tokyo 150, Japan. Annual subscription price is: Individual: One year—\$35.00; Two years—\$50.00; Three years—\$65.00. Institutional: One year—\$50.00; Two years—\$65.00; Three years—\$80.00. All subscriptions, without exception, will start with the first issue published after the order is received. Back copies are available, but must be purchased separately. Cost per individual copy is \$5.00. Foreign subscribers add \$15.00 to regular rate: foreign orders, \$6.00.

**Change of address:** Notice should be sent to the publisher six weeks in advance of effective date. Include old and new addresses with zip codes. The publisher cannot accept responsibility for undelivered copies. Second-class postage is paid at Thorofare, New Jersey 08086. **Postmaster:** Form 3547 to SLACK Incorporated, 6900 Grove Road, Thorofare, NJ 08086.

As of Volume 1, Number 1, *Infection Control* is listed in *Index Medicus*, *Current Contents—Clinical Practice*, *Hospital Literature Index*, and *Cumulative Index to Nursing and Allied Health Literature*.

# 10 Reasons for Warming Up to a Cold Sterilant Wavicide-01<sup>®</sup>

1. The *least* expensive sterilant on the market.
2. Approved as a disinfectant, using a 1:4 dilution at room temperature.
3. Ready to use, Wavicide-01 works without an activator.
4. Sporicidal, as proven by AOAC test, at 25°C (10 hrs), 40°C (5 hrs) and 60°C (1 hr).
5. Approved for use in high-power ultrasonic cleaners.
6. Proven effective in continuous 28 day use and re-use with ultrasonic systems, even in the presence of organic matter.
7. Odorless when used as a disinfectant.
8. Will not yellow hands (some disinfectants do).
9. Will not fog or corrode fiberscopes.
10. Stable, long life, *balanced glutaraldehyde* formulation.
