# Chronic Arthritis

Physicians and surgeons stress the importance of physical treatment in the management of chronic arthritis.

In this branch of therapy Anti-phlogistine Brand Dressing stands out prominently among the topical applications because of its potentialities for effecting striking amelioration of the arthritic process.

It has an undoubted effect on the local metabolism, increasing the anabolic and catabolic processes and encouraging the absorption of joint effusions and toxic end-products.

*It is one of the simplest and yet one of the most effective methods of applying topical heat.*

# GUY'S SILENT SUCTION APPARATUS

as made for

WM. MAYHEW MOLLISON, C.B.E., F.R.C.S.

“ An efficient *silent* suction apparatus is essential in many throat investigations and operations and indeed is used for many operations on other parts of the body.

“ The above illustration shows an Electric Suction Apparatus which can rightly claim to be more efficient than the apparatus generally in use. The suction is continuous and so powerful that clots of blood and the most tenacious mucus are quickly removed. The apparatus is quiet and can easily be moved about the operation theatre and from one theatre to another. It is possible to use it for intra-tracheal

insufflation at the same time as suction since the pump delivers sixty litres of air per minute. The valves in the cylinder head are strong and specially designed for silence in operation and the sump of the machine carries enough oil for six months' continuous use; this ensures efficiency with the minimum of attention. The entire unit is mounted in a robust mahogany case which is fitted with four rubber-tyred castors. On the side of the case two large screw necked bottles are mounted. These bottles are the commercial “Kilner” type and can therefore be replaced with the minimum of expense. Blood and other fluids are removed from the operating field by the suction plant and find their way into the big bottle. The second bottle is a safety trap in the unlikely event of the first bottle becoming full at a moment when it is inconvenient to change it.

“ There are no resistances to regulate the speed and in order to use the apparatus it is only necessary to connect it to the main electrical supply.” The makers are Down Bros., Ltd., London.

# PRESCRIBE DeVilbiss

## No. 15 ATOMIZER

For more than 45 years the medical profession has recognized the value of the DeVilbiss No. 15 Atomizer for applying sprayed solutions in prescribed self-treatment. The adjustable gold tip permits spraying in any direction, the vented nasal guard prevents excess pressure in the nasal cavities and the atomizer may be sterilized easily and rapidly by boiling or passing the tip through a flame. Dependable and certain in the hands of the patient, the DeVilbiss No. 15 applies the treatment you want gently and thoroughly—may we suggest that you mark "DeVilbiss Atomizer No. 15" on your prescription where its use is indicated.

**AEROGRAPH Co., Ltd., 43 Holborn Viaduct, London, E.C.1.** Sole distributors of DEVILBISS products in the United Kingdom. Telephone: Holborn 1257 and 1258

Ventilating Grooves prevent excess pressure in Nasal Cavities.

Adjustable gold tip for spraying in any direction.

## THE GOLDEN SQUARE THROAT, NOSE AND EAR HOSPITAL

Near Piccadilly Circus  
LONDON, W.1

(Gerrard 4058)

### HONORARY MEDICAL STAFF

**SURGEONS:** Mr. Lionel Colledge; Mr. Gilbert Chubb; Mr. F. Cunliffe Ormerod; Mr. A. R. Dingley  
Mr. Gilbert H. Howells; Mr. J. F. Simpson.

**ASSISTANT SURGEONS:** Mr. J. C. Hogg; Mr. J. Roydon Peacock; Mr. J. P. Monkhouse.

**Physician:** Dr. C. E. Iakin.

**Neurologist:** Dr. L. R. Yealland.

**OPHTHALMOLOGIST:** Mr. F. A. Williamson-Noble.

**GENERAL SURGEON:** Mr. J. B. Hunter.

**DENTAL SURGEON:** Mr. B. Mendleson.

**RADIOLOGIST:** Dr. Edith Hope.

**ANÆSTHETISTS:** Dr. G. I. Moriarty; Dr. A. W. Matthew; Dr. S. Coffin; Dr. J. H. T. Challis;  
Dr. F. Longhurst; Dr. D. Lewis; Dr. G. Hochschild; Dr. G. Edwards; Dr. Blair Gould.

The Hospital has **101 Beds** for In-patients and an annual Out-patient attendance of over **50,000**.

### CLINICAL INSTRUCTION

Clinical instruction in the Diagnosis and Treatment of Diseases of the Ear, Nose and Throat is given in the Out-patient Department from 2 to 5 p.m. daily, and on Tuesdays and Thursdays from 6 to 9 p.m. also. Major operations are performed every morning and afternoon, except Saturdays, in the In-patient Operating Theatres. Minor operations are performed in the Out-patient Operating Theatre on three mornings a week.

Practitioners and Medical Students are admitted to the practice of the Hospital as Post-Graduates. Clinical Assistants, whose duty it is to assist the staff, are appointed as vacancies occur.

For further information apply to the Dean: **GILBERT H. HOWELLS.**

In addition to the General Wards, there are Semi-private Wards and 11 Private Rooms. The charge for a Private Room is 7 guineas a week, plus a fee for the surgeon.

Further particulars may be obtained from F. P. CARROLL, *Secretary-Superintendent.*

## CENTRAL LONDON THROAT, NOSE AND EAR HOSPITAL GRAY'S INN ROAD

(Near King's Cross Stations)

**DAILY CLINICS. LECTURES ON FRIDAYS, 4 p.m.**

**OVER 11,000 NEW PATIENTS YEARLY. 50,000 ATTENDANCES.**

**IN-PATIENT DEPARTMENT (Hospital and Recovery Home), 104 BEDS.**

**COURSES IN ANATOMY AND PHYSIOLOGY** by a Teacher in Anatomy for Part I of the D.L.O. Examination, and **CLINICAL COURSES** by the Honorary Medical Staff for Part II of the Examination are given twice yearly.

**COURSES IN METHODS OF EXAMINATION AND DIAGNOSIS** at frequent intervals.

### SURGEONS

**Mr. HAROLD KISCH**

**Mr. C. GILL-CAREY**

**Mr. ARCHER RYLAND**

**Mr. J. D. McLAGGAN**

**Mr. F. W. WATKYN-THOMAS**

**Mr. W. A. MILL**

### ASSISTANT SURGEONS

**Mr. A. LOWNDES YATES, Mr. N. ASHERSON, Mr. W. G. SCOTT-BROWN**

### CLINICAL ASSISTANTS

Are appointed from among those duly qualified gentlemen who have been enrolled as Post-Graduate Students of the Hospital.

*Further particulars on application to*

**J. D. McLAGGAN, M.A., F.R.C.S., Dean.**

**JOHN H. YOUNG, Secretary-Superintendent.**

# The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY  
WALTER HOWARTH

ASSISTED BY  
W. M. MOLLISON

1. Original Articles are accepted on the condition that they have not been published elsewhere.
2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.
3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter added.
4. Orders for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.
5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.
6. Editorial Communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.
7. The Annual Subscription commencing with the January issue is Two Pounds sterling, post free, and is payable in advance.
8. Single copies, both of the present and the previous series, are on sale at Four Shillings each.
9. All Subscriptions, advertising and business communications should be sent to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

### *United States of America*

Orders for this Journal may be sent either through a local bookseller, or to Messrs. G. E. STECHERT & CO., 31-33 East 10th Street, New York, or direct to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2, England.
