The Royal College of Psychiatrists is a charity registered in England and Wales (228636) and in Scotland (SC038369).

International Psychiatry was originally published as (and subtitled) the *Bulletin of the Board of International Affairs* of the Royal College of Psychiatrists.

Printed in the UK by Henry Ling Limited at the Dorset Press, Dorchester DT1 1HD.

[†]The paper used in this publication meets the minimum requirements for the American National Standard for Information Sciences – Permanence of Paper for Printed Library Materials, ANSI Z39.48-1984.

Notice to contributors

International Psychiatry publishes original and scientific articles, country profiles and points of view, dealing with the policy and promotion of mental health, the administration and management of mental health services, and training in psychiatry around the world. Correspondence as well as items for the news and notes column will also be considered for publication.

Manuscripts for publication must be submitted electronically to the Editor (hghodse@sghms.ac.uk), with a copy sent to the Secretariat (ip@rcpsych.ac.uk). The

maximum length for papers is 1500 words; correspondence should not be longer than 500 words. The Harvard system of referencing should be used.

A declaration of interest must be given and should list fees and grants from, employment by, consultancy for, shared ownership in, or any close relationship with, any organisation whose interests, financial or otherwise, may be affected by the publication of your submission. This pertains to all the authors.

Manuscripts accepted for publication are copy-edited to improve readability and to ensure conformity with house style.

Contributions are accepted for publication on the condition that their substance has not been published or submitted elsewhere.

About our peer-review process

All articles submitted as 'special papers' will be peer-reviewed to ensure that their content, length and structure are appropriate for the journal. Although not all papers will be accepted for publication, our peer-review process is intended to assist our authors in producing articles for worldwide dissemination. Wherever possible, our expert panel of assessors will help authors to improve their papers to maximise their impact when published.

Mission of *International Psychiatry*

The journal is intended primarily as a platform for authors from low- and middle-income countries, sometimes writing in partnership with colleagues elsewhere. Submissions from authors from International Divisions of the Royal College of Psychiatrists are particularly encouraged.
