Governing at Home

The White House and Domestic Policymaking

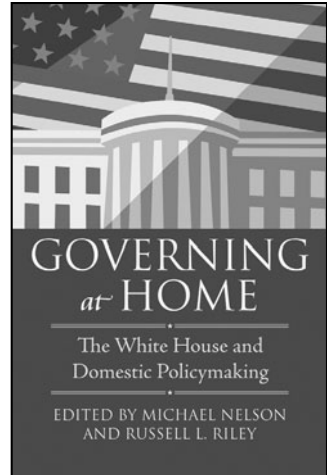

Edited by Michael Nelson and Russell L. Riley

“Well conceived and superbly executed, *Governing at Home* is a good read and a fine reference that combines the scholarship of those studying domestic policymaking with the recollections of those experiencing it in the White House.”—Charles O. Jones, author of *The Presidency in a Separated System*

“Nelson and Riley, two of the leading scholars of the American presidency, brilliantly probe the inner-most workings of every White House domestic policy office in this book. A must-read on how domestic policy is made, how it is sold, and why it succeeds or fails.”

—Shirley Anne Warshaw, author of *Keys to Power: Managing the Presidency*

336 pages, Cloth \$39.95, Paper \$19.95

Slavery in the American Republic

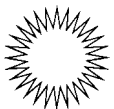

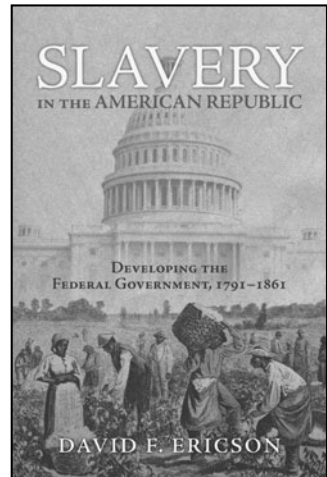

Developing the Federal Government, 1791–1861

David F. Ericson

“Treating fundamental subjects—war, territory, law, property, labor, and citizenship—this resonant book powerfully advances our understanding of how slavery constituted political life in antebellum America. Its sharply-etched arguments about institutions, power, and policy illuminate how a ‘house divided’ by race and region nonetheless could constitute a tightly connected structure.”—Ira Katznelson, coauthor of *Liberal Beginnings: Making a Republic for the Moderns*

“Ericson’s powerful book amply documents how the institution of slavery was not only shaping domestic and foreign policy but also shaping the structure of the federal government itself.”—James Huston, author of *Calculating the Value of the Union: Property Rights, Slavery, and the Economic Origins of the Civil War*

344 pages, Cloth \$37.50
