A GUIDE TO

**SOVIET RUSSIAN TRANSLATIONS
OF AMERICAN LITERATURE**

GLENORA and DEMING BROWN. This first book about American literature in the Soviet Union contains an interpretative essay and a check list. Its introductory essay examines the chronological and thematic patterns in the Soviet selection of American books for translation, 1917 to 1953, and indicates how the Russians have visualized American life and culture from the literature available to them. The check list contains American works translated from 1917 to 1947, giving all available data, including year-by-year printing figures.

**UKRAINIAN NATIONALISM
1939-1945**

JOHN A. ARMSTRONG. Strong, courageous bands of nationalists struggled to establish Ukrainian independence during the Second World War. Here is their story. Dr. Armstrong interviewed leading nationalists, was allowed to read secret documents, and studied all available Ukrainian press reports on the movement. He tells in straightforward, factual terms the dramatic history of these years when the Iron Curtain was temporarily lifted from Russia and the suppressed anti-Soviet forces became evident. Crisply and authoritatively he evaluates every aspect of the movement, relating each to its historical background.

**SOVIET POLICIES IN CHINA
1917-1924**

ALLEN S. WHITING. Based on an exhaustive reading of all available documents from the 1917-24 period, featured here is important new evidence on (a) the Stalin-Trotsky debate over China, (b) deep schisms within the Soviet elite prior to Lenin's death, (c) Sun Yat-sen's active role in bringing the Soviets into China, (d) alterations in the Karakhan Manifesto of 1919. The book systematically reconstructs the attitudes of many Soviet organizations and officials in China in that period.
