Red Vienna

Experiment in Working-Class Culture, 1919-1934

HELMUT GRUBER,
Polytechnic University, New York

"In a work that treats political, social, and intellectual history with brilliance, Gruber demonstrates how socialism failed in Vienna."—*Choice*

"This is by far the most wide-ranging and successful study of Red Vienna....Balancing a comprehensive account of the positive aspects of the experiment with a trenchant critique, Helmut Gruber has produced an exemplary cultural history reaching far beyond its Viennese locale. His book is enhanced by its vivid portrait of the socialist milieu, its imaginative use of sources, and its evocative writing."—Anson Rabinbach, *The Cooper Union for the Advancement of Science and Art*

"An important, vigorously argued study that demonstrates effectively the successes and failures of inter-war Austrian Social Democracy in Vienna. It will be welcomed by scholars of modern Austrian history, as well as by those interested in the history of modern socialism in twentieth-century Europe."—John W. Boyer, *University of Chicago*

"Exhaustively researched and written in clear, stylish prose, this is the first comprehensive analysis of Austrian socialism's effort to transform completely the physical and cultural environment of the Viennese working class after World War I. Skillfully integrating political, social, and cultural history, Gruber's book is not only a major contribution to the study of modern Austria, but a model exploration of the complex relationship between socialist parties and their working-class supporters. Incisive comparisons with other European countries make this study invaluable for all social historians and scholars of the working class. A most impressive achievement."—Geoffrey G. Field, *State University of New York, Purchase*

The Autobiography of Ōsugi Sakae

Translated and Introduced
by Byron K. Marshall

In the Japanese labor movement of the early 20th century, no one captured the public imagination as vividly as Ōsugi Sakae (1885-1923): rebel, anarchist, and martyr. Flamboyant in life, dramatic in death, Ōsugi came to be seen as a romantic hero fighting the oppressiveness of family and society.

France at the Crystal Palace

Bourgeois Taste and Artisan
Manufacture in the
Nineteenth Century
WHITNEY WALTON

Walton approaches 19th-century French industrial development from a new perspective—that of consumption. She analyzes the French performance at the Crystal Palace Exhibition of 1851 to illustrate how bourgeois consumers influenced France's distinctive pattern of industrial development.

Working Knowledge

DOUGLAS HARPER

New in paper—"Harper's portrait of Willie, the all-around craftsman, is more than an endearing one. It is a reflection on the role, good and bad, that technology, its use and misuse, has played in our lives. *Working Knowledge* is beyond nostalgia. It is a challenge for us to take a long hard look at where we are today in the matter of our life and our work."—Studs Terkel

Moral Communities

The Culture of Class Relations in the Russian Printing Industry, 1867-1907

MARK D. STEINBERG

Steinberg offers a rare perspective on the social and political crisis in late Imperial Russia. He focuses on employers, supervisors, and workers in the printing industry as it evolved from a state-dependent handicraft to a capitalist industry.

The German-American Radical Press

The Shaping of a Left Political Culture, 1850-1940

Edited by Elliott Shore, Ken Fones-Wolf, and James Danky

Wilhelm Weitling noted in 1850 that among his radical German immigrant colleagues "everybody wants to put out a little paper." *Kampfblätter* was what German immigrant workers called these newspapers, which were aimed at supporting their struggle for a better life. This volume conveys the complexity and richness of the German-American radical press, from the '48ers to the antifascist editors of the 1930s and '40s.
