There's nothing older than yesterday's infection control information.

What's the price
of not knowing the
latest information on
infectious disease,
infection control and
antibiotic resistance?

- Infectious diseases are the third leading cause of death in the United States and contribute to more than \$200 billion in annual health care costs.
- Hospital-acquired infections cost more than \$5 billion annually and contribute to one death every 6 minutes.
- Costs related to antibiotic resistance are estimated to be \$30 billion annually.

ican, INC. (ican) is dedicated to reducing the deaths and dollars claimed by infectious disease and antibiotic resistance. By combining the best of information with the best of technology, **ican** defines the role of the Internet in the lives and practices of health professionals. We have created a unique community where experts mine information and the resulting knowledge is easily shared.

To find out how **ican** delivers the freshest knowledge, call us at **1-877-422-6462** or visit us on the Web at www.icaninc.net.
