## TABLE OF CONTENTS

Historical Preface Ferne, J.D.	xi
PART I. FUNDAMENTAL PARAMETERS	
Fundamental Parameters of Cepheid Variables (Review) Pel, J.-W.	1
Double-Mode Cepheids (Review) Balona, L.A.	17
Cepheid Temperatures Derived from Energy Distributions Teays, T.J. and Schmidt, E.G.	30
Radial Velocities of Classical Cepheids Barnes III, T.G. and Moffett, T.J.	32
Radius Determinations for Nine Short-Period Cepheids Burki, G.	34
Surface-Brightness Radii and Distances of Cepheids Gieren, W.P.	38
A Generalization of the CORS Method to Determine Cepheid Radii Caccin, B. et al.	43
Baade-Wesselink Radii of Long-Period Cepheids: New Observations Coulson, I.M., Caldwell, J.A.R. and Gieren, W.	48
Cepheid Radii from Infrared Photometry Welch, D.L., Evans, N.R. and Drukier, G.	51
Distances and Radii of Classical Cepheids Barnes III, T.G. and Moffett, T.J.	53
Light-Curve Parameters of Northern Galactic Cepheids Moffett, T.J. and Barnes III, T.G.	56
Infrared Observation of Galactic Cepheids Fernley, J.A., Jameson, R.F. and Sherrington, M.R.	58
New Evidence for Mass Loss in Classical Cepheids Stifft, M.J.	63
Classical Cepheids: Period Changes and Mass Loss Deasy, H.	67
Duplicity, Mass Loss and the Cepheid Mass Anomaly Burki, G.	71
Duplicity among the Cepheids in the Northern Hemisphere Szabados, L.	75
A Search for Cepheid Binaries Using the CaII H and K Lines Evans, N.	79
On the Nature of 89 Herculis Arellano Ferro, A.	81
Non-Cepheids in the Instability Strip Bidelman, W.P.	83
Cepheid-like Supergiants in the Halo Sasselov, D.D.	85

The Quasi-Cepheid Nature of Rho Cas	
Percy, J.R. and Keith, D.	89
On the Brightness and Pulsational Properties of Yellow Supergiants	
Arellano Ferro, A.	91
Some Remarks on the Unique Cepheid HR 7308	
Simon, N.R.	93
Kinematic Evidence for Fundamental Pulsation in SU Cas	
Turner, D. et al.	95
A Study of the Short-Period Cepheid EU Tauri	
Gieren, W.P.	98
Abundance Analysis of Alpha Ursa Minoris	
Giridhar, S.	100

## PART II. EVOLUTION and PULSATION THEORY

Cepheid Evolution (Review)	
Becker, S.	104
Theory of Cepheid Pulsation: Excitation Mechanisms (Review)	
Cox, J.P.	126
Non-Adiabatic Effects on the Pulsation Periods	
Aikawa, T.	147
Non-Adiabatic, Non-Linear Pulsations of Bump Cepheids	
Buchler, J.R., Goupil, M.J. and Klapp, J.	149
Theoretical Study of Light Curves	
Davis, C.G.	153

## PART III. EXTRAGALACTIC CEPHEIDS and the PL RELATION

Magellanic Cloud and Other Extragalactic Cepheids (Review)	
Feast, M.W.	157
Cepheids as Extragalactic Distance Indicators (Review)	
Madore, B.F.	166
The Cepheid Luminosity Scale	
Schmidt, E.G.	199
A Recalibration of the Luminosities of Early-Type Stars	
Balona, L.A. and Shobbrook, R.R.	201
On the Distance to the Open Cluster Lyngå 6	
Anderson, E.R., Madore, B.F. and Pedreros, M.	203
Concerning the Accuracy of Photometric Reddenings for Cepheids	
Turner, D.	205
Are the Cepheids in Cluster Nuclei a Rare Breed?	
Turner, D.	209
A Search for Long-Period Cepheids in Associations	
van den Bergh, S.	212
Leavitt Variables in the Large Magellanic Cloud	
Grieve, G.R., Madore, B.F. and Welch, D.L.	215
The Infrared Distance Scale: The Galaxy and the Magellanic Clouds	
Welch, D.L. et al.	219

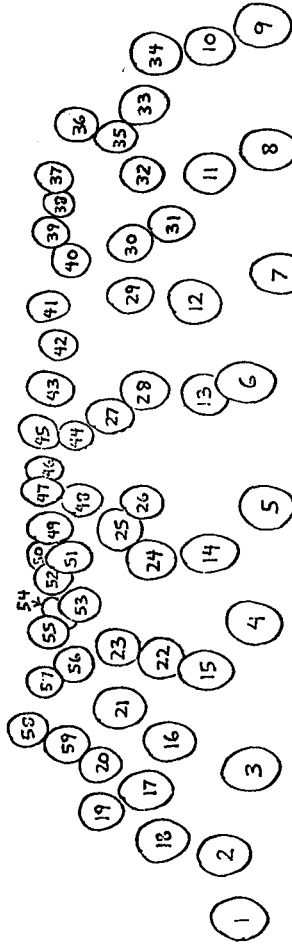

New Distances to the Magellanic Clouds Visvanathan, N.	223
The Distance to M33 Based on BVRI CCD Observations of Cepheids Freedman, W.L.	225
The Distances to Nearby Galaxies from Near-Infrared Photometry McAlary, C.W. and Welch, D.L.	228
PART IV. POPULATION II CEPHEIDS	
Population II Cepheids (Review) Harris, H.	232
Theoretical Models of W Virginis Stars Bridger, A.	246
A New Possible Resonance for Population II Stars Cox, A.N. and Kidman, R.B.	250
Hydrodynamic Models of Population II Cepheids Fadeyev, Yu.A. and Fokin, A.B.	254
Some Masses for Population I & II Cepheids Kidman, R.B. and Cox, A.N.	256
Two Pop II Cepheids in the Globular Cluster M10 Clement, C., Hogg, H.S. and Lake, K.	260
Eight Pop II Cepheids Recently Identified in Globular Clusters Clement, C., Hogg, H.S. and Wells, T.	262
Two Mid-Giant Branch Stars in M15 with Cepheid-like Variations Chu, Y.-H. et al.	264
Current Problems in Horizontal Branch Theory: Implications Demarque, P.	268
Fourrier Decomposition Parameters for the RR Lyrae Stars U & V Caeli Hansen, L. and Peterson, J.O.	272
Comparison of Pulsation Properties of RR Lyrae Stars Peterson, J.O.	276
The Effects of Convection in RR Lyrae Stars Stellingwerf, R.F.	280
The Long-Term Behaviour of Two Pulsating Variables in M56 Wehlau, A. et al.	284
Index of Authors	288
Index of Objects	295
Index of Topics	299

INTERNATIONAL ASTRONOMICAL UNION COLLOQUIUM NO. 82: CEPHEIDS: OBSERVATIONS AND THEORY  
 TORONTO, CANADA MAY 28 TO JUNE 1, 1984

- |                      |                          |                       |
|----------------------|--------------------------|-----------------------|
| 1. Christopher Stagg | 21. Mercedes Richards    | 41. Ed Schmidt        |
| 2. William Bidelman  | 22. Alan Bridger         | 42. Alex Fullerton    |
| 3. Marshall McCall   | 23. R. B. Kidman         | 43. Hugh Deasy        |
| 4. Tom Moffett       | 24. Sidney van den Bergh | 44. Iain Coulson      |
| 5. Christine Clement | 25. Romas Mitolas        | 45. Tom Barnes        |
| 6. Barry Madore      | 26. Arne Henden          | 46. John Cox          |
| 7. Norman Baker      | 27. Stephen Becker       | 47. Bruce Coffin      |
| 8. Terry Teays       | 28.                      | 48. Hugh Harris       |
| 9. Laszlo Szabados   | 29. Stefan Mochnacki     | 49. Martin Stiff      |
| 10. Luis Balona      | 30. Chu Yu-Hua           | 50. Jane Blizard      |

| 18. Pierre Demarque  | 38. J. O. Petersen       | 58. John Percy        |
| 19. Cecil Davis      | 39. Norman Simon         | 59. Helen Sawyer Hogg |
| 20.                  | 40. Robert Buchler       |                       |

This volume is dedicated to

Dr. John P. Cox

a pioneer in the field of variable star research,  
who died of a prolonged illness  
only a few short months after bravely travelling  
to Toronto to deliver his review.
