International Maritime Boundaries, Volume IV

Edited by Jonathan I. Charney and Robert W. Smith

This the ultimate guide to international maritime boundaries. Its unique practical features include:

- systematic examination of all international maritime boundaries worldwide;
- comprehensive coverage, including the text of every modern boundary agreement;
- descriptions of judicially-established boundaries;
- maps and detailed analyses of those boundaries;
- expert papers examining the status of maritime boundary delimitations in each of the ten regions of the world;
- papers from a global perspective analyzing key issues in maritime boundary theory and practice; and
- a cumulative index for volumes I - IV. These features make *International Maritime Boundaries* an unmatched comprehensive, accessible resource in the field.

The Jurisdiction of International Tribunals

By Chittharanjan F. Amerasinghe

This work analyzes the jurisdictional powers of international tribunals in certain areas of fundamental significance and importance. It clarifies how tribunals and consensual arrangements have approached problems and which general principles may have emerged. Special aspects of jurisdiction of some particular tribunals have been studied in greater detail. These are: the Permanent Court of International Justice and the International Court of Justice, the ICSID arbitration tribunals, the administrative tribunals covering disputes between international organizations and their employees, the European Court of Human Rights and the European Court of Justice. The choice of these tribunals has been based on the distinctive character of each one of them in the context of modern international legal relations.

The Right of Hot Pursuit in International Law, Second Edition

By Nicholas M. Poulantzas, University of Piraeus, Athens

Volume 22 of Nova et Vetera Juris Gentium Series A, Modern International Law Publications of the University of Utrecht

The author examines the right of hot pursuit on land, in the international law of the sea, and in international air law. He critically analyzes the development of the right, its present status and position in the future. extensively discussed developments include not only consideration of the right of hot pursuit in connection with guerilla warfare techniques and conflicts not amounting to war, but also all recent evolutions in the international law of the sea, including, inter alia, problems appertaining to fisheries, exploration and exploitation of the continental shelf, pirate radiostations, and pollution of the sea.

Statehood and the Law of Self-Determination

By *David Raic*

Developments in International Law, Volume 43

Numerous communities within existing States claim a right to full separate statehood on the basis of their entitlement to an alleged right to self-determination. In light of these developments, this book examines the modern law of statehood, and in particular the role of the law of self-determination in the process of the formation of States in international law. The study shows that the law of statehood has changed considerably since the establishment of the United Nations. It is argued that the law of self-determination is particularly relevant for explaining the international community's position regarding the general recognition, or the general denial, of statehood of different territorial entities under contemporary international law.

Liber Amicorum Judge Shigeru Oda

Edited by *Nisuke Ando, Edward McWhinney, Rüdiger Wolfrum*

Assistant Editor, *Betsy Baker Röben*

Judge Shigeru Oda, having served since 1976 in three successive nine-year terms on the International Court of Justice, has helped to shape the Court's jurisprudence for over a quarter century. His influence on the law of the sea spans an even longer period, beginning with his doctoral dissertation at Yale Law school in the 1950s and continuing with his involvement in the First, Second and Third UN Conferences on the Law of the Sea. In a tribute to Judge Oda's significant contributions to international law, leading scholars on the law of the sea, international dispute settlement and the ICJ itself have produced a Festschrift in his honour that promises to be a standard reference work on these topics for years to come. More than ninety-five contributions are included.

The Security Council and the Protection of Human Rights

By *Bertrand G. Ramcharan*

International Studies in Human Rights, Volume 75

How is the Security Council dealing with human rights imperatives? What does it see as the place of human rights in conflict prevention, peacemaking, peacekeeping and peacebuilding? How does it address the quest for justice in the face of gross violations of human rights? These and other similar questions are addressed in this book, the first of its kind on the human rights role of the Security Council in the post cold-war world. It is a compelling account of the human rights dimensions of the work of the Security Council.

Towards a Truly Common Law

Europe as a Laboratory for Legal Pluralism

Mireille Delmas-Marty

Translated by Naomi Norberg

As we move towards a more global legal community, often with accompanying injustice and violence, Mireille Delmas-Marty demonstrates an urgent need to reconstruct the national and international legal landscapes. She argues that legal reasoning can be applied to concepts such as human rights for European citizens in the new world order.

DISABILITY RIGHTS LAW AND POLICY: International and National Perspectives

Edited by Silvia Yee and Mary Lou Breslin, Disability Rights Education and Defense Fund

This volume describes the extraordinary success of the international movement of people with disabilities to include disability as a human rights issue. The authors are renowned disability rights attorneys, educators and activists who work internationally. The collection begins with a survey of international, comparative, and regional disability law reforms. It sets the stage for the Principles, an exploration of the theoretical problems and issues that must be addressed if disability legislation is to have the desired impact. The work concludes with contributions related to practice, "nuts and bolts" strategies that activists used to achieve passage of the landmark 1990 Americans with Disabilities Act, and a report of the ADA's practical impact on the lives of people with disabilities.

HOW TO COMPLAIN TO THE UN HUMAN RIGHTS TREATY SYSTEM

Anne F. Bayefsky

The aim of this book is to empower individuals with the knowledge of how to use the UN Human Rights Treaty System to complain to an impartial international body about violations of their rights by states. This book provides a clear explanation of the complexities of the UN human rights treaty system and the methodology to employ its procedures to successfully navigate a claim through its proper course. Key beneficiaries of this book are the individual victims of human rights abuses for whose protection the UN human rights treaty system was created.

SURRENDERING TO INTERNATIONAL CRIMINAL COURTS: Contemporary Practice And Procedures

Geert-Jan Alexander Kooops

This innovative book provides an incisive, knowledgeable and comprehensive study of the promises and limitations of the emerging phenomenon of surrender of individuals to international criminal courts. The author analyses the distinctions and similarities with international extradition norms and persuasively establishes the international legal confinements of the surrender concept and the role of states and NATO-forces within this concept.

2002. 300 pages. Price: \$115.00/hardcover.

INTERNATIONAL CRIMINAL PRACTICE, 3rd edition

John R.W.D. Jones and Steven Powles

Well established as a standard text, this volume expands its coverage of international criminal practice. The ICTY and ICTR have both held extensive trials, and appeals, while the ICC and SCSL are just becoming operational. Accordingly, the approach adopted here is to examine the law and practice of the ICTY and ICTR in parallel, with a comparison being made to the ICC and SCSL, where appropriate, at the end of each section. Unlike previous editions, this volume is presented thematically, rather than as an article-by-article, rule-by-rule commentary.
