

Proceedings of the
CAMBRIDGE PHILOSOPHICAL
SOCIETY

(MATHEMATICAL AND PHYSICAL SCIENCES)

VOLUME 60

PART 2

CAMBRIDGE UNIVERSITY PRESS

BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W. 1

AMERICAN BRANCH: 32 EAST 57TH STREET, NEW YORK 22, N.Y.

Price Forty-five Shillings Net (U.S.A. \$8.00)

Subscription price per volume £8 net post free (\$28.50 in U.S.A.)

April 1964

CAMBRIDGE PHILOSOPHICAL SOCIETY

FOUNDED 1819; ROYAL CHARTER 1832

Session 1963–1964

President: E. N. WILLMER

Vice-Presidents: E. J. H. CORNER, F. P. WHITE, M. RYLE

Treasurer: R. C. EVANS

Secretaries: (Mathematical) T. G. MURPHY

(Physical) A. D. YOFFE

(Biological) S. SMITH

The publications of the Society consist of the *Proceedings* and of the *Biological Reviews*. The publication of *Transactions* was suspended at the end of Volume XXII.

Orders should be sent to: THE MANAGER, CAMBRIDGE UNIVERSITY PRESS, BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W. 1. Enquiries from the U.S.A. should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, U.S.A.

For the purchase of early parts of the *Transactions*, *Proceedings* and *Biological Reviews* application should be made to the Secretaries. All parts of the *Proceedings* (including the cumulative index to Vols. 1 to 50) and *Biological Reviews* are available, and prices of sets or single parts will be quoted on application.

Fellows and Associates of the Society are particularly requested to inform the Secretaries of any change of postal address, and to send their subscriptions to the Treasurer, CAMBRIDGE PHILOSOPHICAL SOCIETY, FREE SCHOOL LANE, CAMBRIDGE.

All correspondence regarding library exchanges and Fellows' copies should be addressed to the Secretaries at the Society's office.

PROCEEDINGS of the CAMBRIDGE PHILOSOPHICAL SOCIETY

edited by

T. G. MURPHY

in consultation with

J. W. S. CASSELS

J. F. C. KINGMAN

F. SMITHIES

P. C. CLEMMOW

D. W. S. SCIAMA

C. T. C. WALL

1. Four parts of the *Proceedings* are issued each year.
2. Communications for the *Proceedings* should be sent to *The Librarian, Cambridge Philosophical Society, Free School Lane, Cambridge*. Papers by Fellows and Associates of the Society should be communicated directly by the author. **Other papers must be communicated by a Fellow**, who in doing so should give his opinion on the suitability of the paper for publication.
3. Papers occupying more than twenty pages of print can only rarely be accepted.
4. It is recommended that each paper be prefaced by a short abstract. Copies of a *Guide for the Preparation of Synopses*, prepared by the Abstracting Services Consultative Committee and issued by the Royal Society, may be obtained from the Librarian.
5. Drawings for illustration and diagrams should be on a large scale and on smooth white Bristol board in Indian ink. Lettering should be written clear of the diagram, and the desired position of the lettering indicated by pencilled lines.
6. References should be listed at the end of each paper. Titles of journals listed in *Mathematical Reviews* should be abbreviated as in *Mathematical Reviews*, except that proper names should be given in full. First and last page numbers should be given where relevant.
7. **Authors are particularly requested to prepare their manuscripts in a form suitable for printing, with adequate margins.** A pamphlet on the preparation of papers may be obtained from the Librarian. If a large number of corrections are required in the proofs, the Council reserves the right to make a charge towards the cost.

8. Authors may receive, on request, free offprints of *Proceedings* papers (fifty for a sole author and a smaller number for each joint author).

PROCEEDINGS OF THE INSTITUTION OF ELECTRICAL ENGINEERS

The Proceedings of the Institution present, in the form of papers and discussions, a comprehensive record of advances in electrical science and technology, covering the whole field from electrical power engineering to electronics, together with allied developments.

The *Proceedings* is published monthly. Individual copies cost £1.

The annual subscription is £10.

Copies can be obtained on application to the Secretary (Publications Department).

THE INSTITUTION OF ELECTRICAL ENGINEERS
SAVOY PLACE, LONDON W.C.2

THE JOURNAL OF THE SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS

VOLUME 11, NUMBER 4, DECEMBER 1963

- Percolation and Fractional Branching Processes.* J. M. HAMMERSLEY and R. S. WALTERS.
Extension of an Infinite Plate with a Circular Hole. EDWARD L. REISS.
An All-Integer Programming Algorithm with Parabolic Constraints. CHRISTOPH WITZGALL.
Multiple Entries in Traffic. WILLIAM S. JEWELL.
An Inversion Integral for a Gegenbauer Transformation. THEODORE P. HIGGINS.
Percolation Processes and Related Topics. H. L. FRISCH and J. M. HAMMERSLEY.
A Necessary and Sufficient Condition for Stability of Difference Schemes for Initial Value Problems. MARY LOUISE BUCHANAN.
On the Number of Orthogonal Signals Which Can be Placed in a WT-Product. MARIO PETRICH.
Analysis of Ring Aerofoils of Elliptic Cross Section, Part I: General Theory. J. SIEKMANN.
A Predictor-Corrector Type Scheme for the Mixed Boundary Problem for a Hyperbolic First-Order System in Two Dimensions. VIDAR THOMEE.
Another Alternating Direction Implicit Method. R. B. KELOGG.
Polar Orbits of Near Earth Satellites. MORRIS WEISFELD.
Extended Application of Alternating Direction Implicit Iteration Model Problem Theory. EUGENE L. WACHSPRESS.
Approximations in L^p and Chebyshev Approximations. JEAN DESCLOUX.
A Note on M-Matrix Equations. DAVID CARLSON.
The Characteristic Equation of an Imprimitive Matrix. A. L. DULMAGE and N. S. MENDELSON.
Numerical Solution of Plane Elasticity Problems. D. S. GRIFFIN and R. S. VARGA.
Quadratic Programming in Real Hilbert Spaces. R. J. KELLY and W. A. THOMPSON, JR.
Existence Theorems for Nonlinear Ballistics, Part II: Effect of Gravity. WILLIAM R. HASELTINE.
Optimum Checking Procedures. RICHARD E. BARLOW, LARRY C. HUNTER and FRANK PROSCHAN.
Computing the N Best Loopless Paths in a Network. S. CLARKE, A. KRICKORIAN and J. RAUSEN.
Remarks on Solutions of the Optimal Assignment Problem. A. L. DULMAGE and N. S. MENDELSON.
The Field of an Antenna near the Center of a Large Circular Disk. JOSEPH B. KELLER.
Errata: On the Radiation Pattern of a Base-Driven Antenna over a Circular Conducting Screen. C. L. TANG.

The Journal is published quarterly. Subscriptions are \$14.00 per volume

Orders should be placed with the

SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS

Box 7541, Philadelphia 1, Pennsylvania, U.S.A.

ROYAL STATISTICAL SOCIETY

THE JOURNAL OF THE ROYAL STATISTICAL SOCIETY is published in two series: SERIES A (GENERAL), four issues a year, annual subscription post free £5. 4s. (U.S. \$15.00), price each part 30s.; SERIES B (METHODOLOGICAL), three issues a year, annual subscription post free £4. 2s. (U.S. \$12.00), price each part 35s.

Contents of Series B (Methodological), Vol. 26, Part 1, 1964

Theory of cyclic rotation experiments. (With Discussion.) By H. D. PATTERSON.

On local unbiased estimation. By D. A. S. FRASER.

Local conditional sufficiency. By D. A. S. FRASER.

Bayesian estimation of the variance of a normal distribution. By I. G. EVANS.

Posterior odds for multivariate normal classifications. By S. GEISSER.

On the monotonicity property of the three main tests for multivariate analysis of variance. By J. N. SRIVASTAVA.

Further models for estimating correlation in discrete data. By G. M. TALLIS.

Simultaneous confidence limits for cross-product ratios in contingency tables. By L. A. GOODMAN.

Some applications of exponentially ordered scores. By D. R. COX.

A note on kurtosis. By H. M. FINUCAN.

Prediction by progressive correction. By C. S. VAN DOBBEN DE BRUYN.

Estimation of the spectral density function in the presence of harmonic components. By M. B. PRIESTLEY.

Some results for fixed time traffic signals. By D. J. BUCKLEY and R. C. WHEELER.

A deformation method for quadratic programming. By S. ZAHL.

Obtainable through any bookseller or direct from:
