SPARKS AND SON, INVENTORS

of the INDIA-RUBBER URINALS for MALE
and FEMALE RAILWAY TRAVELLERS, IN-
VALIDS and CHILDREN.

These Urinals are made on the most approved prin-
ciples, and all are fitted with the recently-invented valve, which will not
allow any return of the water by the upper part, by being placed in
any position, and from their improved construction are better than any
similar articles at present in use.

A liberal discount to the Medical Profession. Descriptive Circulars
and Lists of Prices sent per Post.

Hospitals, Infirmaries, and Unions supplied on the best terms with
every article for the use of the sick and invalided.

SPARKS AND SON,
PATENT SURGICAL TRUSS AND BANDAGE MAKERS,
28, CONDUIT STREET, NEW BOND STREET, LONDON.
ESTABLISHED ABOVE 30 YEARS.

*Just Published, Third Edition, entirely Re-written, 8vo, cloth, 21s. ;
with Plates, 31s. 6d. ; the Plates alone, 10s. 6d.*

A PRACTICAL TREATISE ON DISEASES OF THE URINARY and GENERATIVE ORGANS of both SEXES, including SYPHILIS. By WILLIAM ACTON, M.R.C.S.

"Mr. Acton's book treats with lucidity and completeness the various topics incident
to this most important department of Surgery ; it is furnished with a large number of
very beautiful coloured illustrations, and is in every respect admirably got up. No
surgeon can boast of a well-furnished library who is without this Treatise."—*Med.
Circular.*

"This new edition of Mr. Acton's well-known and valuable work is a great improve-
ment on former editions. The illustrations, all admirably executed, are mostly new,
and reference to the work has been greatly facilitated by the addition of a very copious
index. Mr. Acton has laboured successfully in bringing his work level with the latest
knowledge, and he has paid particular attention to the new light thrown upon his
specialty by the microscopical and chemical researches lately made in France and
Germany."—*Brit. Med. Jour.*

PULVIS JACOBI VER., NEWBERY'S.

To the Medical Profession of Great Britain and Ireland.

GENTLEMEN,—We beg to call your attention to the following extracts from a Paper by the late John Cheyne, M.D., F.R.S.E., M.R.I.A., Physician to the Hardwicke Fever Hospital, Dublin, and Physician-General to His late Majesty's Forces in Ireland, &c., &c., contained in the "*Dublin Hospital Reports*," vol. 1, p. 317.

"Since this case came into my possession, I have been led to make a good many clinical experiments, which have enabled me to verify the reports which I had heard of the efficacy of JAMES'S POWDER, in sometimes removing the APOPLECTIC DIATHESIS in persons advanced in life. It is, moreover, worthy of observation, that JAMES'S POWDER has been of remarkable utility in certain instances of DESTRUCTION OF BLOOD TO THE HEAD, which occurred at an early period of life, and threatened to end by effusion. Lastly, in two cases of GENERAL PLETHORA, in which, however, the head was more affected than any other part, JAMES'S POWDER was exhibited by me with perfect success."

Also vol. 1, p. 320.

"The following very simple method of exhibiting JAMES'S POWDER, in cases of undue determination of blood to the head, is that which I have generally pursued. The patient is made to begin with a very moderate dose, not more than two grains at bedtime, and to increase the dose by half-a-grain every night, until some sensible effect is produced upon the stomach, bowels, or skin. Should the stomach be affected with sickness, the dose must be lessened by one grain on the following night. By the addition of a little rhubarb to it, a larger quantity of JAMES'S POWDER may be administered than the stomach could otherwise bear. If the skin is softened, or the bowels affected, the dose should not further be increased, but it must be repeated every night for a considerable length of time: in several instances I have known eighteen or twenty grains taken for a considerable period without any inconvenience."

The following extract (showing the increasing estimation in which the true Dr. James's Powder is held by Medical Practitioners) is taken from "The Lumlæan Lectures," 1858-59, delivered before the Royal College of Physicians, by A. Tweedie, M.D., Physician to the London Fever Hospital, who is admittedly one of the highest practical authorities on the subject of Fever. He said, ("*The Lancet*," June 16, 1860, p. 590,) as follows:—

"If the febrile excitement be such as to require antimonial preparations, a pill containing 2 or 3 grains of James's Powder (prepared by Newbery) should be taken at intervals according to circumstances."

In writing to Messrs. Newbery, he made the following statement:—

"I wish that your preparation was always used."

To secure the dispensing of the original preparation, which, for 114 years, has been sold by the house of Newbery and Sons, in St. Paul's Churchyard, it is necessary to prescribe it as "PULVIS JACOBI VER., NEWBERY'S," otherwise another article (wanting in the best properties, and recommended to be given in a different code of dose, though called by the same name) may be substituted for the original medicine.

This substitution must bring disappointment, and of course deter Practitioners from prescribing Dr. James's Powder, or lead them to regard it as a preparation on which no dependence can be placed.

FRANCIS NEWBERY AND SONS.

45, St. Paul's Churchyard, London.

Prices for Dispensing $\frac{1}{4}$ oz. Bottle, 3s. 4d.; 1 oz. 9s. Usual Discount.

PLEASE TO PRESCRIBE IT AS

PULVIS JACOBI VER., NEWBERY'S.
