DESIGN CENTRE SELECTION* ON MICROFICHE 1981-82 EDITION

***OVER 7000 PRODUCTS**

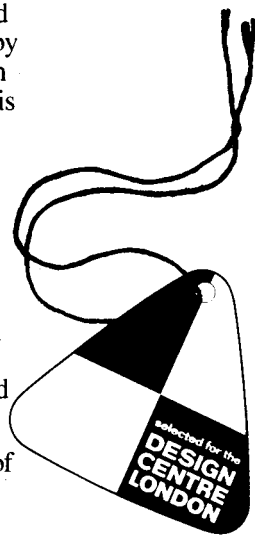

Design Centre Selection is a photographic record of over 7000 British-made consumer and contract goods currently in production, selected for their high standard of design by independent panels of experts appointed by The Design Council. The panels judge a sample of each product against a set of tough criteria, considering if it is

well made
easy to use
suited to its purpose
simple to maintain
good looking
value for money.

In addition, products must meet relevant published UK safety standards and, when appropriate, pass stringent tests carried out by recognised testing organisations and by users.

The complete Selection is now available on 167 fiches of silver halide film, showing half-tone photographs and captions, and includes Design Council Awards since 1973. The set, which comes in two boxes with a detailed printed index, makes a vital addition to all reference and college libraries and is indispensable to anyone needing to know what is best in British design today.
