

**The Proceedings of the Nutrition Society**, published by Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The meetings also include sessions at which papers are communicated by members and others on original work. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription (excluding VAT) to the *Proceedings* is £117.00 net (US \$229.00 in USA, Canada and Mexico). Single issues are £41.00 (US \$79.00 in the USA, Canada and Mexico) each; postage extra.

**Copying.** This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/94 \$5.00 + .00. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

*ISI Tear Sheet Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

*For all other use*, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

CONTENTS

**Editorial**

Tribes and Professions. *A. J. F. Webster* 799-800

**Concepts of energy utilization**

Effective energy: a concept of energy utilization applied across species.  
*G. C. Emmans* 801-821

**Equations for the estimation of body composition**

Prediction equations for the estimation of body composition in the elderly using anthropometric data. *Marjolein Visser, Ellen van den Heuvel & Paul Deurenberg* 823-833

**Cardiovascular effects of meal size**

The effect of meal size on the cardiovascular responses to food ingestion. *Michael B. Sidery & Ian A. Macdonald* 835-848

**Relation between feed composition and protein utilization**

The effect of breed on the relationship between feed composition and the efficiency of protein utilization in pigs. *I. Kyriazakis, D. Dotas & G. C. Emmans* 849-859

**Effects of complex carbohydrate foods on lipids**

Effects of rye bran, oat bran and soya-bean fibre on bile composition, gallstone formation, gall-bladder morphology and serum cholesterol in Syrian golden hamsters. *Jie-Xian Zhang, Eva Lundin, Carl-Olof Reuterving, Göran Hallmans, Roger Stenling, Eric Westerlund & Per Åman* 861-870

Effect of baked beans (*Phaseolus vulgaris*) on steroid metabolism and non-starch polysaccharide output of hypercholesterolaemic pigs with or without an ileo-rectal anastomosis. *Neuza M. B. Costa, A. Graham Low, Ann F. Walker, Robert W. Owen & Hans N. Englyst* 871-886

**Effects of iron intake on copper status**

Increasing intakes of iron reduce status, absorption and biliary excretion of copper in rats. *Shiguang Yu, Clive E. West & Anton C. Beynen* 887-895

**Micronutrient intake, status and tests of intelligence**

Dietary intake and micronutrient status of adolescents: effect of vitamin and trace element supplementation on indices of status and performance in tests of verbal and non-verbal intelligence. *Susan Southon, A. J. A. Wright, P. M. Finglas, Angela L. Bailey, Julie M. Loughridge & A. D. Walker* 897-918

**Effects of vitamin B<sub>6</sub> deficiency on bone**

Vitamin B<sub>6</sub> deficiency experimentally-induced bone and joint disorder: microscopic, radiographic and biochemical evidence. *Priscille G. Massé, Kenneth P. H. Pritzker, Maria G. Mendes, Adele L. Boskey & Harald Weiser* 919-932
