Philosophy of Religion

*The Impact of Modern
Knowledge on Religion*

The purpose of this book is to show the relationship between human reason and religion. It suggests that philosophy today has reached a point of irrationalism where it is in utter contempt of lasting truths.

LONGMANS

New edition now ready

EVE AND THE GRYPHON

by Gerald Vann, O.P.

The author treats of four great models for Catholic women living in the world and trying to work for Christ in the world. Every Christian woman has a vocation, not necessarily in the specialised sense of a religious vocation, but in its basic meaning of a call from God, a call to live for Christ wherever she may find herself. A balanced book for modern Christian women.

Beyond East and West

By John Wu

21/- net

The spiritual autobiography of a Chinese scholar and lawyer who became a Catholic.

"When he was a young man he wrote that to be a Chinese of his generation is to be a very much bewildered person, that may still be true. But while China can produce such men as our author we can regard that great country with confident hope."

The Salvation of the Nations

By Jean Daniélou

8/6 net

"The subject immediately carries the author into every kind of live and fascinating question about the relation of Catholics with the non-Catholics around them, about Christianity and Communism as rival world solutions, about Eastern religions, about the Orthodox Church, about Judaism, about dogma, prayer, liturgy, Catholic life."
