VOL. LXV

1952-1955

PUBLISHED BY
OLIVER & BOYD
EDINBURGH: TWEEDDALE COURT
LONDON: 39A WELBECK STREET, W. 1

1955

CONTENTS

NO.	PAGE
*1. New Records of Sub-Littoral Polychætes from the Clyde Sea Area, with a Description of a New Species. By R. B. Clark, Department of Zoology, University of Glasgow, and the Marine Station, Millport. <i>Communicated by</i> Dr A. C. Stephen. (With Four Text-figures.) Issued separately December 31, 1952,	I
*2. Note on the Evolutionary History of the Paired Fins of Elasmobranchs. By Miss A. E. Miller, M.A., University of Glasgow. <i>Communicated by</i> Sir John Graham Kerr, F.R.S. (With Six Text-figures.) Issued separately December 31, 1952,	27
*3. A Genetical Basis for the Classification of Strains of <i>Phytophthora infestans</i> . By William Black, B.Sc., Ph.D., Scottish Plant Breeding Station, Corstorphine, Edinburgh. (With One Text-figure.) Issued separately December 31, 1952,	36
*4. Longtime Trends in Egg Production in a Closed Line of Fowls. By J. S. S. Blyth, B.Sc., Ph.D., Poultry Research Centre, Edinburgh, 9. <i>Communicated by</i> Dr A. W. Greenwood. (With Two Text-figures.) Issued separately December 31, 1952,	52
*5. The Mode of Multiplication of the Rous No. 1 Sarcoma Virus. By J. G. Carr, B.Sc. (Dunelm), D.Sc. (Edin.), Poultry Research Centre, Edinburgh, 9. Issued separately May 25, 1953,	66
*6. Factors Affecting the Onset and Duration of Annual Rest in the Domestic Fowl. By R. M. MacIver, Poultry Research Centre, Edinburgh, 9. <i>Communicated by</i> Dr A. W. Greenwood. Issued separately May 25, 1953,	73
*7. On Migrations of <i>Lymnæa peregra</i> (Müller) on the Shores of Loch Lomond. By W. Russell Hunter, Department of Zoology, University of Glasgow. <i>Communicated by</i> Professor C. M. Yonge, F.R.S. (With One Plate and Six Text-figures.) Issued separately May 25, 1953,	84
*8. Transuterine ("Internal") Migration of Fertilised Ova in the Albino Rat. By A. Young, M.B., F.R.F.P.S.G., Department of Anatomy, University of Glasgow. <i>Communicated by</i> Professor George M. Wyburn. (With Five Plates.) Issued separately June 29, 1953,	106
9. Examples of Hybridization between two Species of Macaw (<i>Ara</i>). By L. Auber, Ph.D., and W. C. Osman Hill, M.D. (With One Text-figure.) Issued separately June 29, 1953,	117

NO.	PAGE
*10. Frictional Fusion Along a Himalayan Thrust. By J. S. Scott and H. I. Drever, Department of Geology, University of St Andrews. (With Six Plates and One Text-figure.) Issued separately October 17, 1953, . . .	121
*11. The Condition of the Mantle Cavity in Two Pulmonate Snails living in Loch Lomond. By W. Russell Hunter, Department of Zoology, University of Glasgow. <i>Communicated by</i> Professor C. M. Yonge, F.R.S. (With Two Text-figures and Two Tables.) Issued separately December 10, 1953, . . .	143
12. Notes on the Genus <i>Corvaspis</i> . By D. L. Dineley, B.Sc., Ph.D., F.G.S., Department of Geology, University College of the South-West, Exeter. <i>Communicated by</i> Dr W. E. Swinton. (With Two Plates and Sixteen Text-figures.) Issued separately December 10, 1953, . . .	166
13. The Abdominal Portion of the Alimentary System in <i>Hapalemur</i> and <i>Lepilemur</i> . By D. V. Davies, Professor of Anatomy, St Thomas's Hospital Medical School, and W. C. Osman Hill, Prosector, Zoological Society of London. (With Two Plates and Six Text-figures.) Issued separately July 3, 1954, . . .	182
*14. Note on the Embryonic Development of the Hoatzin (<i>Opisthocomus hoazin</i>). By the late Charles W. Parsons, M.A. Edited by Agnes E. Miller, M.A. <i>Communicated by</i> Professor C. M. Yonge, F.R.S. (With Three Plates.) Issued separately July 3, 1954, . . .	205
*15. The Bottom Deposits of Loch Lomond. By H. D. Slack, Zoology Department, University of Glasgow. (With Six Text-figures.) Issued separately July 3, 1954, . . .	213
*16. Electron Microscopic Studies of Spinal Ganglion Cells. By J. Hossack and G. M. Wyburn. From the Departments of Chemistry and Anatomy, Glasgow University. (With Six Plates.) Issued separately July 3, 1954, . . .	239
17. The Reproductive Organs in <i>Hapalemur</i> and <i>Lepilemur</i> . By W. C. Osman Hill, Prosector, Zoological Society of London, and D. V. Davies, Professor of Anatomy, St Thomas's Hospital Medical School. (With Four Plates and Four Text-figures.) Issued separately December 8, 1954, . . .	251
*18. New Lamellibranchs from the Gutterford Burn Flagstones (Gala-Tarannon) of the Pentland Hills, near Edinburgh. By Archie Lamont, Ph.D., F.G.S. (With One Plate.) Issued separately December 8, 1954, . . .	271
*19. Sexual Maturity in Brown Leghorns, and the Relationship of Genetic Variance to Differences in Environment. By Robert Osborne, M.A., Ph.D. (Edin.), Poultry Research Centre, Edinburgh, 9. <i>Communicated by</i> Dr A. W. Greenwood. Issued separately December 8, 1954, . . .	285
*20. Nitrogen Metabolism in <i>Pisum sativum</i> . By T. G. Hyde, B.Sc., Ph.D., Department of Biochemistry, Queen's College, Dundee, University of St Andrews. <i>Communicated by</i> Dr R. P. Cook. (With Four Text-figures.) Issued separately December 8, 1954, . . .	299

NO.	PAGE
21. Sex-linked Association of Egg Weight and Body Weight in Brown Leghorns. By Robert Osborne, M.A., Ph.D. (Edin.), Poultry Research Centre, Edinburgh, 9. <i>Communicated by</i> Dr A. W. Greenwood. Issued separately December 8, 1954,	317
22. Silurian Greywackes in Peeblesshire. By Ewart Kendall Walton, B.Sc., Ph.D. (Dunelm). <i>Communicated by</i> Professor T. S. Westoll. (With Four Plates, Five Text-figures and Three Tables.) Issued separately December 26, 1955,	327
*23. Chromosome Number in the Blue, Fin and Sperm Whales. By B. J. A. Nowosielski-Slepowron, B.Sc., and Professor A. D. Peacock, M.Sc., D.Sc., Natural History Department, University of St Andrews, Queen's College, Dundee. (With Two Plates.) Issued separately December 26, 1955, .	358
*24. Egg Attachment in <i>Crangon vulgaris</i> and Other Caridea. By C. M. Yonge, F.R.S., Department of Zoology, University of Glasgow. (With Eleven Text-figures and Thirteen Tables.) Issued separately December 26, 1955, .	369

* The thanks of the Society are due to the Carnegie Trust for the Universities of Scotland for grants towards the costs of the illustrations, tables, etc. in these papers.

INSTRUCTIONS TO AUTHORS (*continued*)

to the size and strength of shading, lettering, lines, etc. Drawings should be submitted, if possible, flat, not rolled.

The overall space available for figures and plates is $9\frac{1}{2}'' \times 7\frac{1}{2}''$ in *Transactions* and $7\frac{1}{2}'' \times 4\frac{3}{4}''$ in *Proceedings*.

Photographs should be unmounted glossy black and white prints, marked on the back with the name of the author, number of the figure, and an indication of the top. Prints should not be trimmed or cut out. Authors should suggest the arrangement of the figures on each plate, either by a diagram or a paste-up of rough prints, with indication of any lettering to be inserted.

Lettering must be in black ink in neat and legible style, or lightly written in pencil.

Indicating Lines and Arrows required on wash drawings or photographs should have the point marked by a pin-hole, and must be drawn on the back or on a covering tissue and not on the photograph or drawing. On line drawings such lines should be drawn thin but firmly.

Graphs should be drawn on white Bristol board or on squared paper ruled in faint blue lines: no other colour ruling is suitable. Since blue lines do not appear in reproductions, any cross-lines required must be drawn. If a tracing of a graph constructed on an unsuitable grid is submitted, white tracing paper should be used.

Tables. Tabular matter must be kept to a minimum. No paper should present both tables and corresponding graphs, except where good reason can be given.

Duplicates. When the author can conveniently do so, it is desirable that duplicates of illustrations should be supplied for the use of the referees.

Proofs of papers will be sent to authors or communicators to the addresses indicated in correspondence or on MSS. The cost of authors' corrections in excess of 5 per cent. of the printer's charges for the setting of a particular paper will be charged to the authors. Proofs should, if possible, be returned within one week to *The Secretary, Royal Society of Edinburgh, 22 George Street, Edinburgh, 2*, and *not to the printer*. To prevent delay, authors who are abroad should, if possible, appoint someone in this country to correct proofs.

Offprints. As soon as a *Transactions* paper, or the sheet in which the last part of a *Proceedings* paper appears, is ready for press, copies of offprints, in covers bearing the title of the paper and the name of the author, are printed and placed on sale. The date of such separate publication is printed on each paper. Authors of papers will receive fifty offprints free, if they so desire; but, in view of the necessity for economy in paper and printing, attention is directed to the desirability of requesting only twenty-five copies where this number will meet requirements. Additional offprints may be obtained at a fixed scale of prices given on a form attached to the first proof by the printer, by whom an account will be rendered to authors. To prevent disappointment, especially if a paper contains plates, authors should, as soon as possible, notify the Secretary of the number of additional copies required.

Indexes. To facilitate the compilation of indexes, and to secure due attention being given to the important points of a paper in Catalogues of Scientific Literature, authors are requested to supply to the Secretary, with the final proofs of papers, a brief index (on the model given below) of the points in a paper which are considered new or important. Indexes will be edited by the Secretary for publication in each volume of the *Transactions* and *Proceedings*.

MODEL INDEX

Houstoun, R. A.—A measurement of the velocity of light. *Proc. Roy. Soc. Edin.*, A, 3, 1949–50, 95–104.
Light, A measurement of the velocity of.
R. A. Houstoun. *Proc. Roy. Soc. Edin.*, A, 63, 1949–50, 95–104.
Velocity of Light, A measurement of the.

Authors are advised, before sending in papers, to consult *Notes on the Preparation of Papers to be communicated to the Royal Society of London* (1951), and especially the chapters dealing with symbols, signs, and abbreviations recommended for British Scientific Publications. A copy may be had on application to the Secretary.

NO.	PAGE
XXII. Silurian Greywackes in Peeblesshire. By EWART KENDALL WALTON, B.Sc., Ph.D. (Dunelm). <i>Communicated by</i> Professor T. S. WESTOLL. (With Four Plates, Five Text-figures and Three Tables)	327
<i>(Issued separately December 26, 1955)</i>	
XXIII. Chromosome Number in the Blue, Fin and Sperm Whales. By B. J. A. NOWOSIELSKI-SLEPOWRON, B.Sc., and Professor A. D. PEACOCK, M.Sc., D.Sc., Natural History Department, University of St Andrews, Queen's College, Dundee. (With Two Plates)	358
<i>(Issued separately December 26, 1955)</i>	
XXIV. Egg Attachment in <i>Crangon vulgaris</i> and other Caridea. By C. M. YONGE, F.R.S., Department of Zoology, University of Glasgow. (With Eleven Text-figures and Thirteen Tables)	369
<i>(Issued separately December 26, 1955)</i>	

Title, Contents, and Index to Volume

*The Papers published in this part of the PROCEEDINGS may be
had separately, on application to the Publishers, at the follow-
ing Prices:—*

No. XVII	Price 5s. 3d.	No. XXI	Price 1s. 9d.
No. XVIII	„ 2s. 9d.	No. XXII	„ 7s. 3d.
No. XIX	„ 2s. 3d.	No. XXIII	„ 3s. 3d.
No. XX	„ 3s. od.	No. XXIV	„ 5s. 6d.
