ionX \equiv ION BEAM PRODUCTS

General Ionex Corporation, the world leader in advanced ion beam technology, continues to offer the most up-to-date components and systems for the production of ion beams. With energies from the keV to MeV range, GIC ion beam products provide versatility, ease of operation and reliability. From basic ion sources to MeV analysis and materials modification systems, IONEX can cover the spectrum of your needs.

Our product line includes:

- Positive, negative ion sources
- Ion beam lenses, steerers, scanners
- Air insulated accelerator systems
- MeV Tandetron™ ion accelerators

- RBS Surface Analyzer
- MeV implantation systems
- Target chambers and manipulators

You can customize your system with a choice of manual or computer control, metal sealed flanges, vacuum systems, etc.

LET OUR TWENTY YEARS OF EXPERIENCE WORK FOR YOU. CONTACT US WITH YOUR SPECIFIC NEEDS.

MRS

BULLETIN

September 1988

A Publication of the Materials Research Society

Volume XIII, NO. 9 ISSN: 0883-7694 CODEN: MRSBEA

SPECIAL FEATURE

- 29** Materials Meetings in Asia
Provide Multiple-Week
Interdisciplinary Exchange

FEATURE

- 37** Birth of a Journal: A
Chronicle
Reflections on *Journal of
Materials Research* at Its
Three-Year Anniversary
E.N. Kaufmann

ISSUES

- 23** Why We Need Hands-on
Engineering Education
A.D. Kerr and R. B. Pipes
- 39** How Do You Rate Scientific
and Technical Programs for
Funding Priorities, Blue
Ribbon Panels for
Effectiveness?

INTERNATIONAL

- 16** Advanced Materials for
Developing Countries
- 44** Up Close: Ceramics
Research at the University
of Aveiro
J.L. Baptista

MRS NEWS

- 5** MRS Treasurer's Report
- 42** Record Number of Papers
Submitted for 1988 MRS
Fall Meeting
- 50** How to Prepare
Manuscripts for Publication
in *Journal of Materials
Research*

DEPARTMENTS

- 3** Letter from the President
- 7** Material Matters
- 8** Research/Researchers
- 20** Research Resources
- 41** Section News
- 46** Historical Note
- 48** Conference Reports
- 49** Upcoming Conferences
- 52** Book Reviews
- 54** Calendar
- 58** Classified
- 60** Postterminaries

材料研究

ON THE COVER: The words "Materials Research" were seen frequently in Asia during a series of materials-related meetings and other events this past summer. For more information about these events and the role of the Materials Research Society, see the reports beginning on p. 29 in this issue.

ABOUT THE MATERIALS RESEARCH SOCIETY

The Materials Research Society (MRS) is a nonprofit scientific association founded in 1973 to promote interdisciplinary goal-oriented basic research on materials of technological importance. Membership in the Society includes more than 7,600 scientists from industrial, government, and university research laboratories in the United States and more than 25 countries.

The Society's interdisciplinary approach to the exchange of technical information is qualitatively different from that provided by single-discipline professional societies because it promotes technical exchange across the various fields of science affecting materials development. MRS sponsors two major international annual meetings encompassing approximately 30 topical symposia, as well as numerous

single-topic scientific meetings each year. It recognizes professional and technical excellence, conducts short courses, and fosters technical exchange in various local geographic regions through Section activities and Student Chapters on university campuses.

MRS is an Affiliated Society of the American Institute of Physics and participates in the international arena of materials research through associations with professional organizations such as European MRS.

MRS publishes symposia proceedings, the MRS BULLETIN, Journal of Materials Research, and other current scientific developments.

For further information on the Society's activities, contact MRS Headquarters, 9800 McKnight Road, Suite 327, Pittsburgh, Pennsylvania 15237; telephone (412) 367-3003; facsimile (412) 367-4373.
