

Journal of Financial and Quantitative Analysis

Editors

Hendrik Bessembinder, *University of Utah, USA*

Stephen Brown, *New York University, USA*

Jarrad Harford, *University of Washington, USA*

Paul Malatesta, *University of Washington, USA*

The *Journal of Financial and Quantitative Analysis (JFQA)* publishes theoretical and empirical research in financial economics. Topics include corporate finance, investments, capital and security markets, and quantitative methods of particular relevance to financial researchers. With a circulation of 3000 libraries, firms, and individuals in 70 nations, the *JFQA* serves an international community of sophisticated finance scholars—academics and practitioners alike. The *JFQA* prints less than 10% of the more than 600 unsolicited manuscripts submitted annually. An intensive blind review process and exacting editorial standards contribute to the *JFQA*'s reputation as a top finance journal.

The *Asian Journal of International Law* (*AsianJIL*) is the journal of the Asian Society of International Law.

**Sign up for sample articles, table-of-content alerts
and news emails here www.AsianJIL.org**

AsianJIL publishes peer-reviewed scholarly articles and book reviews on public and private international law. Articles focus on Asian issues or bring one of the many Asian perspectives to bear on global issues, but *AsianJIL* is also of more general interest to scholars, practitioners, and policymakers located in or working on Asia.

Journal of Pension Economics & Finance

Editors

Steven Haberman, *Cass Business School, UK*
Moshe Milevsky, *York University, Canada*
J. Michael Orszag, *Watson Wyatt, UK*

The *Journal of Pension Economics & Finance (JPEF)* is the only academic journal focusing on the economics and finance of pensions and retirement income. The ageing population, together with the shrinking workforce, heralds a growing pensions crisis, which has become a key public policy issue in developed countries and elsewhere. *JPEF* provides a valuable and influential forum for international debate in this area.

The journal publishes original research papers, covering a variety of topics, including pension fund management, the regulation of pensions, and pensions and labour markets.

Guidelines for Contributors

Annals of Actuarial Science

Annals of Actuarial Science (AAS) is published twice yearly by the Institute and Faculty of Actuaries.

Papers on any area of actuarial research or practice are welcome and will be considered for publication. Suitable topics include, but are not restricted to: new developments in actuarial practice; original research in actuarial science and related fields; or reviews of developments in a field of interest to the actuarial profession.

All papers should be written in English (UK). The style should be reasonably formal, but should be as clear and understandable as possible. Enough information should be included to allow a reader to reproduce any mathematical or numerical results.

All papers are peer-reviewed by anonymous referees appointed by the Editor. Papers may need minor or major revisions before they can be accepted for publication, or they may be considered to be unsuitable for AAS. The Editor's decision is final.

Each paper must include an abstract, keywords, the name and affiliation of all authors and contact details of the corresponding author. The abstract, which should be about 100–200 words, should be written so that others are encouraged to read the paper. It should give the main objectives and conclusions of the paper.

Papers should be submitted electronically to the Editor, using pdf format. If the paper is accepted, a Word or LaTeX version will be required and all diagrams and figures must be provided separately in tif, gif, jpeg or eps format.

All published work must be acknowledged, and references given. The author is responsible for securing written permission to include any copyrighted material. Notwithstanding any scrutiny and any alterations made, authors remain solely responsible for the accuracy of all material provided and views expressed. Papers must not have been copyrighted or submitted for publication elsewhere at the same time as being submitted to AAS. Any previous publication, for example in conference proceedings, must be notified to the editor at the time of submission. If the paper is accepted for publication the author(s) must sign a copyright declaration, transferring copyright to the Institute and Faculty of Actuaries.

All correspondence should be addressed to the Editor below.
