Journal of MATERIALS RESEARCH

JOURNAL OF MATERIALS RESEARCH (JMR) is an interdisciplinary journal serving the materials research community through publication of original research articles and invited reviews encompassing the synthesis, processing, characterization, properties, and theoretical description of materials.

JMR publishes new research that demonstrates a significant impact or advance of scientific understanding of interest to the materials research community. Engineering studies and applications to commercial products are beyond the scope of *JMR* and should be submitted elsewhere. Manuscripts that report data without giving an analysis, interpretation, or discussion are only acceptable if the data are sufficiently important that publication is expected to lead to significant new studies or advancements in science or technology.

Manuscripts must be submitted to the *Journal of Materials Research* electronically via ScholarOne manuscripts, at the following website address: <http://mc.manuscriptcentral.com/jmr>. Electronic submission expedites the review process and also allows authors to track the status of their manuscripts at any time. Complete instructions are available on the ScholarOne site and authors will be prompted to provide all necessary information.

Manuscripts must be prepared in English, using a word processing program, formatted to fit 8½ x11 in. paper, and saved as .doc or .pdf files. Separate graphics files (.eps and .tif) must be uploaded for each figure. Authors may also upload .xls or .ppt supplemental files as part of the manuscript submission process. All of these files will be converted to .pdf format. Detailed instructions are available on the submission web site. During submission, authors must enter all coauthor names and e-mail addresses. Manuscripts will not be considered for peer review until this information is provided. Authors must also enter manuscript keywords using the *JMR* keyword list (located on the submission web site). Authors who are not fluent in English must have their manuscript edited for correct English grammar and sentence structure before submission.

Authors are expected to follow the conventional writing, notation, and illustration style prescribed in *Scientific Style and Format: the CSE Manual for Authors, Editors and Publishers, 7th edition, 2006*. Authors should also study the form and style of printed material in this journal. SI units should be used. Authors should use an identical format for their names in all publications to facilitate use of citations and author indexes.

Manuscripts are accepted with the understanding that they represent original research, except for review articles, and that they have not been copyrighted, published, or submitted for publication elsewhere. Authors submitting manuscripts to *JMR* who have related material under consideration or in press elsewhere should send a copy of the related material to *JMR* at the time of submission. While their manuscripts are under consideration at *JMR*, authors must disclose any such related material. To expedite the review process, authors may provide names and contact information for up to four possible reviewers.

Articles are original research reports that include complete, detailed, self-contained descriptions of research efforts. All articles must contain an abstract and section headings.

Commentaries and Reviews: *Journal of Materials Research* occasionally publishes commentaries on topics of current interest or reviews of the literature in a given area. If an author proposes a review, the title, abstract, and a brief outline should be submitted to the Editorial Office via e-mail for prior consultation on the appropriateness of the topic.

Color policy: It is not necessary for authors to indicate that a figure should be displayed in color online. *JMR* will assume that any author who submits figures in color wants and agrees to their being produced in color online. Figures may be printed in color at the author's request for an additional charge. Color figures must be submitted before the paper is accepted for publication, and cannot be received later in the process. Authors cannot submit two versions of the same figure, one for color and one for black and white; only one version can be submitted. Authors need to carefully consider the following when submitting figures in color that will

be published in color online only: 1) The colors chosen must reproduce effectively and the colors should be distinguishable when printed in black and white; 2) The descriptions of figures in text and captions must be sufficiently clear for both online and print copy. When submitting figures to be in color online only, authors should include the phrase <<color online>> in the figure captions. This is the author's responsibility. Authors will see these color figures when viewing their author page proofs on screen. Authors should always print their page proofs in black and white to see how they will appear in print. Authors will NOT be allowed to submit color figures to replace black and white figures in the page proof stage. To maximize the probability that figures will be published in color online and also print as good quality black and white or grayscale graphics, authors are encouraged to follow these figure submission guidelines: 1) Submit a color graphic in Tagged Image File Format (.tif); 2) Submit color graphics with a resolution of at least 300 dpi (600 dpi if there is text or line art in the figure); 3) Submit color graphics in CMYK format; 4) Submit figures sized to fit the actual column or page width of the journal so that reduction or enlargement is not necessary; 5) Submit multipart figures in one single electronic file.

Journal of Materials Research (ISSN: 0884-2914) is published twenty-four times a year by Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006 for the Materials Research Society. Periodical Postage Paid in New York, NY and additional mailing offices. **POSTMASTER:** Send address changes to *Journal of Materials Research*, c/o Journals Dept., Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to Subscription Fulfillment, *Journal of Materials Research*, Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA (for USA, Canada, and Mexico); or Cambridge University Press, University Printing House, Shaftesbury Road, Cambridge, CB2 8BS, England (for UK and elsewhere). Allow at least six weeks advance notice. For address changes, please send both old and new addresses and, if possible, include a mailing label from a recent issue. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price.

Reprints of individual articles in *Journal of Materials Research* may be ordered. For information on reprints, please contact Cambridge University Press. Reprints of complete back issues older than the prior volume year may be ordered on an individual basis via Cambridge Core. To determine availability, visit the appropriate page for the *JMR* back issue desired (cambridge.org/jmr).

Individual member subscriptions are for personal use only.

Journal of MATERIALS RESEARCH

Volume 34, Number 1, January 14, 2019

JMR EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019

1 Introduction

Gary L. Messing, Susmita Bose,
Jürgen Eckert, Linda S. Schadler

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019

2–19 In situ dynamic compression wave behavior in additively
manufactured lattice materials

Jonathan Lind, Brian J. Jensen,
Matthew Barham, Mukul Kumar

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019: REVIEW

20–34 Chemical modification of degenerate eutectics: A review of
recent advances and current issues

Saman Moniri, Ashwin J. Shahani

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019

35–47 Pronounced grain boundary network evolution in nanocrystalline
Cu subjected to large cyclic strains

David B. Bober,
Thomas LaGrange, Mukul Kumar,
Timothy J. Rupert

48–57 Coupled oxidation resistance and thermal stability in sputter
deposited nanograined alloys

Pralav P. Shetty, Megan G. Emigh,
Jessica A. Krogstad

58–68 High strength nanocrystalline Cu–Co alloys with high tensile
ductility

Andrea Bachmaier,
Georg Benedikt Rathmayr,
Jörg Schmauch, Norbert Schell,
Andreas Stark, Niels de Jonge,
Reinhard Pippan

69–77 Creep behavior of gold thin films investigated by bulge testing at
room and elevated temperature

Benoit Merle

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019: REVIEW

78–96 A review on friction-based joining of dissimilar aluminum–steel
joints

Kush P. Mehta

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019

97–106 Role of binders in solid electrolyte interphase formation in lithium
ion batteries studied with hard X-ray photoelectron spectroscopy

Benjamin T. Young,
Cao Cuong Nguyen,
Anton Lobach, David R. Heskett,
Joseph C. Woicik, Brett L. Lucht

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019: INVITED REVIEW

107–125 Double perovskite ($\text{Sr}_2\text{B}'\text{B}''\text{O}_6$) oxides for high-temperature
thermoelectric power generation—A review

Tanmoy Maiti, Mandvi Saxena,
Pinku Roy

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019

126–133 Chain rotation significantly reduces thermal conductivity of
single-chain polymers

Hao Ma, Zhiting Tian

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019: REVIEW

134–157 Magnetocaloric materials: From micro- to nanoscale

João H. Belo, Ana L. Pires,
João P. Araújo, André M. Pereira

(Continued)

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019

- 158–168 **Diffusional and electrochemical investigation of combustion synthesized $\text{BaLi}_2\text{Ti}_6\text{O}_{14}$ titanate anode for rechargeable batteries** Anshuman Chaupatnaik, Prabeer Barpanda

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019: REVIEWS

- 169–193 **External fields for the fabrication of highly mineralized hierarchical architectures** Hortense Le Ferrand
- 194–205 **Synchrotron X-ray characterization of materials synthesized under microwave irradiation** Nathan Nakamura, B. Reeja-Jayan

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019

- 206–213 **Surfactant-free fabrication of pNIPAAm microgels in microfluidic devices** Mutian Hua, Yingjie Du, Jiaqi Song, Mo Sun, Ximin He

EARLY CAREER SCHOLARS IN MATERIALS SCIENCE 2019: INVITED FEATURE PAPER

- 214–230 **Graphene synthesized in atmospheric plasmas—A review** Albert Dato
