NAME INDEX

The following index contains the names of all individuals mentioned in the second volume of the Journal except those referred to in the bibliographies. Since the IALL-Directory, which has just been published and distributed by the IALL Secretariat, facilitates the communication between the IALL membership, a limitation of this index to librarians and an arrangement by countries appears to be unnecessary. The names of those individuals who have contributed to the Journal are marked by an asterisk.

SUBJECT INDEX

This index has been compiled from a practical point of view. Since many of our members and colleagues do not have an opportunity to consult reference tools for librarians, all the information on law libraries and law librarianship, on national or international library projects, on recommendations, discussions, publications and articles contained in this volume, is indexed. Although the information referred to in this index is sometimes trivial and, perhaps, hidden in a footnote, it might still be helpful as a starting point. Articles or notes containing more extensive information are marked by an asterisk. K. M.
