Subject Index to Volume 39

A

Abilities, special mental, 193
Access to care, 353
Achievement, mathematics, 221
Adjustment, covariate, 91
Adolescence, 215
Age, maternal, 317, 329, 401
Ageing, 419
Åland Islands, 279, 307
Alcohol, 91, 215
Analysis
  discriminant function, 109
  longitudinal, 143, 165
Anthropometry, 479
Assessment, zygosity, 71
Assortative mating, 143
Atherosclerosis, 15
Attitudes, parental, 231, 271

B

Bayes' theorem 419
Bias
  parental 71
  recruitment, 35
  selection, 441
Binary disease data, 173
Bioethics, 379
Birth
  defects, 345
  injury, 409
  order, 409
  rate, 35
  weight, 35, 491
Blood pressure, 99
Body
  mass index, 15
  weight, 165
Brain damage, 383

C

Cancer, lung 25
Candidate genes, 15
Care, access to 353
Causality, 25
Coffee, 91
Communication, 383
Complications, 383
Compromised fetuses, 379
Concordance, 441
Cord complications, 383
Coronary heart disease, 15, 25
Cost effectiveness, 361
Covariance, genetic, 143
Covariate-adjustment, 91

D

Damage, brain, 383
Data
  binary disease, 173
  family, 173
  twin, 165, 173, 419
Death, fetal, 345, 383, 389
Delivery
  preterm, 361
  vaginal, 389

https://doi.org/10.1017/S0001566000003780 Published online by Cambridge University Press

Dependency, 271
Development, 409
Diagnosis, zygosity, 109
Discriminant function analysis, 109
Disease, binary data, 173
Diseases in twins, 427, 459
Divorce risk, 35
DNA
  fingerprinting, 459
  polymorphisms, 15
  RFLP, 473
Drugs, fertility, 491

E

Education, 221
  school, 245
Effect
  random, 173
  treatment, 85
Embryos, 371
Endurance training, 85

F

Family
  counselling, 259
  multiple birth, 259
  problems, 507
Families of twins, 71, 143
Fecundity, 35, 279
Fellman's law, 307
Fertilization, in vitro, 371
Fertility drugs, 491
Fetal
  death, 345, 383, 389
  growth, 395, 413
Fetuses, compromised, 379
Finland, 279

G

Genes, candidate, 15
Genetic
  covariance, 143
  models, 447
Genotype-environment interaction, 85
Growth, fetal, 395, 413

H

Height, 143
Hellin's law, 307
Heredity, 133
Heritability, 91, 99, 123, 479, 485
Higher order multiples, 491
Hyperlipidemia, 15
Hyperopia, 133
Hypertension, 441

I

Infants, 99, 479, 485
Information, 259
Inheritance of multiple maternities, 279
Injury, birth, 409
Interaction, genotype-environment, 85
Intrauterine fetal death, 383, 389
In vitro fertilization, 371

K

Kibbutz, 245

L

Language retardation, 497
Lipids, serum, 123
Lipoproteins, 15
Logistic regression, 173
Log-linear models, 173
Longitudinal
  analysis, 143, 165
  studies, 427
Lung cancer, 25

M

Malformations, 459
Malnutrition, 335
Maternal age, 317, 329, 401
Mathematical models, 307

https://doi.org/10.1017/S0001566000003780 Published online by Cambridge University Press

Mathematics achievement, 221
Mating, assortative, 143
Maximum likelihood estimation, 419
Means, 165
Measures, repeated, 85
Mental abilities, 193
Models
  genetic, 447
  log-linear, 173
  mathematical, 307
  twin, 85
Mortality, 25
  neonatal, 491
  perintal, 35, 401
Motherhood, safe, 353
Mothers of twins, 501
Multiple birth family, 259
Multiple births, 127
Multiple maternities
  inheritance, 279
  recurrence, 307
Multiple pregnancy, 353
MZ twins, 459

N

Neonatal
  mortality, 491
  temperament, 207
Neonates, 123

O

Obstetric concerns, 353
Order, birth, 409
Ovarian stimulation, 371

P

Parental attitudes, 231, 271
Parity, 317, 329, 401
Peller's law, 307
Perinatal mortality, 35, 401
Permissiveness/restrictiveness, 245
Personality traits, 117
Polymorphisms, DNA, 15, 473
Porencephaly, 383
Pregnancy
  multiple, 353
  triplet, 389
  twin, 361, 379, 395
Prematurity, 491
Preterm
  delivery, 361
  twins, 143
Prevention, 361
Prospective studies, 25
Psychosis, 441

Q

Quadruplets, 295
Questionnaire, 109
Quintuplets, 295

R

Random effects, 173
Rate
  birth, 35
  stillbirth, 295
  twinning, 335, 401
Reared apart, twins, 193
Rearing problems, 501
Recruitment bias, 35
Recurrence of multiple maternities, 307
Registries, 35, 427
  twin, 71
Regression, logistic, 173
Repeated measures, 85
Respiratory sinus arrhythmia (RSA), 181
Restrictiveness/permissiveness, 245
Retardation, language, 497
Risk
  divorce, 35
  twinning, 371

S

Safe motherhood, 353
School, 221
  education, 245

https://doi.org/10.1017/S0001566000003780 Published online by Cambridge University Press

Schooling, 231
Seasonality, 339
Secular trends, 317
Selection bias, 441
Separation, 231
Serum lipids, 123
Singletons, 215
Smoking, 25, 91, 215
  persistence, 447
Social
  service, 507
  support, 501
Special mental abilities, 193
  Sports, 215
Stillbirth rates, 295
Stimulation, ovarian, 371
Studies
  longitudinal, 427
  prospective, 25

T

Teachers, 231
Temperament, 485
  neonatal, 297
Term and preterm twins, 413
Training, endurance, 85
Traits, personality, 117
Transfusion syndrome, 383, 389
Treatment effect, 85
Trend, secular, 317
Triplet pregnancy, 389
Triplets, 279, 295, 345, 491
Twin
  data, 165, 419
  fetal growth, 413
  models, 85
  pregnancy, 361, 379, 395
  registers, 71
  situation, 497
  transfusion syndrome, 383
  vanishing, 339
  zygosity, 473
Twins, 25, 35, 99, 117, 123, 133, 181, 207, 215, 221, 231, 271, 345, 409, 427, 441, 447, 479, 485

U

Ultrasounds, 395
Uric acid, 117

V

Vagal tone, 181
Vaginal delivery, 389
Vanishing twin, 339
Vascular communication, 383

W

Wartime, 335
Weight
  birth, 35, 491
  body, 165

Z

Zygosity, 389, 459, 473
  assessment, 71
  diagnosis, 109
