# Language and Linguistics

Books and Journals from  
Cambridge University Press

We are the world's leading publisher in language and linguistics, with a wide-ranging list of journals and books covering the scope of this discipline.

Our publishing encompasses theoretical, applied and sociolinguistics, and represents a breadth of subfields, including grammar and syntax, phonetics and phonology, semantics and pragmatics, historical linguistics, discourse and conversation analysis, psycholinguistics and neurolinguistics, and first and second language acquisition.

Our acclaimed book list includes state-of-the-art monographs as well as major reference works, guides to research methods, and textbooks at all levels.

# STUDIES IN SECOND LANGUAGE ACQUISITION

## Information for Contributors

For guidelines and requirements regarding manuscript submission, please consult the *SSLA* website at <http://journals.cambridge.org/sla>. Click on the Journal Information tab which will lead you to Information for Contributors. Potential authors are advised that all manuscripts are internally reviewed for both content and formatting/style in order to determine their suitability for external evaluation.

**Research Article.** These manuscripts may be essays or empirical studies, either of which must be motivated by current theoretical issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design and issues related to the context of learning. Maximum length is 11,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 11,000 word limit).

**Research Report.** These manuscripts are shorter empirical studies motivated by current theoretical issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design. Very often, these are narrowly focused studies or they present part of the results of a larger project in progress. The background and motivation sections are generally shorter than research articles. Maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

**Replication Study.** These manuscripts are shorter empirical studies motivated by a previously published study (not necessarily one published in *SSLA*). The background and motivation sections will necessarily be shorter compared to research articles as the maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

**State-of-the-Scholarship Article.** These manuscripts are essays that review the extant research on a particular theme or theoretical issue, offering a summary of findings and making critical observations on the research to date. Manuscripts in this category typically fall within the 11,000-word limit of regular research articles; however, longer manuscripts may be considered on a case-by-case basis.

**Critical Commentary.** These manuscripts are shorter essays (i.e., non-empirical) motivated by current theory and issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design and issues related to the context of learning. Maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

All manuscripts in all categories are peer reviewed and subject to the same high standards for publication in *SSLA*.

ARTICLES

*Implicit Learning of Latin Stress Regularities*  
Calbert R. Graham and John N. Williams 3

*Is Learning a Standard Variety Similar to Learning a New  
Language? Evidence from Heritage Speakers of Arabic*  
Elabbas Benmamoun and Abdulkafi Albirini 31

*Effects of Task Type and L2 Proficiency on the Relationship  
Between L1 and L2 in Reading and Writing: An SEM Approach*  
Tae-Il Pae 63

*What's in the Textbook and What's in the Mind: Polarity Item  
"Any" in Learner English*  
Heather Marsden, Melinda Whong, and Kook-Hee Gil 91

*Identifying a Threshold for the Executive Function Advantage  
in Bilingual Children*  
Cecile De Cat, Arief Gusnanto, and Ludovica Serratrice 119

*Establishing Evidence of Learning in Experiments Employing  
Artificial Linguistic Systems*  
Phillip Hamrick and Rebecca Sachs 153

*Lexical and Syntactic Congruency in L2 Predictive Gender  
Processing*  
Holger Hopp and Natalia Lemmerth 171

*Word-Knowledge Development in Chinese as a Heritage  
Language Learners: A Comparative Study*  
Haomin Zhang and Keiko Koda 201

RESEARCH REPORT

*Response Time Variability Signatures of Novel Word Learning*  
Katya Solovyeva and Robert DeKeyser 225
