

35TH ANNIVERSARY EDITION

THE
ECONOMIST'S
VIEW
OF
THE WORLD
*And the Quest
for Well-Being*

9781108845946 | Hardback | October 2021 | £20 / \$27.95

“In this remarkable book, Steven Rhoads explains how economists perceive the world. In so doing, he reveals both the truths and limitations of the discipline. Non-economists should read the book, in order to understand what economists know. But economists should also read it, in order to understand what they do not.”
Martin Wolf, Chief Economics Commentator,
Financial Times (London)

“A superb tour of the economist’s mind, thoughtful and thought-provoking from beginning to end.”
N. Gregory Mankiw, Robert M. Beren Professor of
Economics, Harvard University, and author of *Principles
of Economics*

“I loved the 1985 edition, which was my first introduction to the distinctive way economists see the world. The new edition retains the virtues of the early one with updated content.”
Daniel Kahneman, Higgins Professor of
Psychology Emeritus at Princeton
University, winner of the Nobel Prize in
Economic Sciences and author of *Thinking,
Fast and Slow*.
