

Index of Subjects

- Abattoirs, isolation of salmonellas of subgenus III (Arizona) from, 271
- Acquisition of *Staphylococcus aureus* by patients undergoing cytotoxic therapy in an ultra-clean isolation unit, 501
- African horse sickness virus, the nucleic acid of, 255
- Antibiotic resistance, changes in, in Sonne dysentery, 287
- Antibodies to *Mycoplasma hominis*, distribution of, 441
- Arizona strains isolated from abattoirs in England and Wales, 271
- Aseptic meningitis, an outbreak of caused by echovirus 4 in northern Japan in 1964, 53
- Bantu school children, salmonellae and shigellae in, 245
- Bluetongue virus, quantal and graded dose-responses of, 231
- Bluetongue virus, sensitivity to lipid solvents, trypsin and pH changes and its serological relationship to arboviruses, 339
- Carrier state of cattle exposed to foot-and-mouth disease virus, 81
- Chickenpox and yaws, concurrent epidemics of, 431
- Clostridium welchii*, distribution of heat-resistant strains in a rural area of Australia, 65
- Clostridium welchii*, enumeration of in the faeces, 367
- Colicine type, changes in, in Sonne dysentery, 287
- Colour test for the measurement of antibody to certain mycoplasma species based upon the inhibition of acid production, 91
- Contaminant viruses in two live virus vaccines produced in chick cells, 1
- Coxsackie A viruses isolated from human sera and mosquitoes in Fiji, 451
- Diphtheria-tetanus-poliomyelitis vaccine, further studies with, 485
- Distribution of heat-resistant *Clostridium welchii* in a rural area of Australia, 65
- Echovirus 4 as a cause of an outbreak of aseptic meningitis in northern Japan in 1964, 53
- Ecology and epidemiology of the pig-bel syndrome in man in New Guinea, 375
- Efficiency of cultures of rectal swabs and faecal specimens in detecting salmonella carriers, 261
- Enumeration of *Clostridium welchii* in the faeces of varying sections of the human population, 367
- Epidemiological study of *Salmonella* in a closed pig herd, 411
- Escherichia coli* strains isolated from diseased human beings and domestic animals, the incidence of infective drug resistance in, 465
- Foot-and-mouth disease virus, studies on the carrier state in exposed cattle, 81
- Foot-and-mouth disease virus, isolation of a variant strain, 397
- Foot-and-mouth disease virus, infectivity assay in pigs, 419
- Fumigation, a simple method of, for disinfecting clothing or bedding containing body lice, 45
- Glandular fever, the incidence of, 457
- Guinea-pig serum, unheated, the influence of, on the neutralization of Semliki Forest virus by various antisera, 33
- Immunity produced by a rough *Salmonella dublin* variant against *Salmonella typhimurium* and *Salmonella choleraesuis* infection in guinea-pigs, 357
- Immunogenicity of experimental trachoma vaccines in baboons, I, 513; II, 529
- Infants, source of *Pseudomonas aeruginosa* infection in, 121
- Infective drug resistance in strains of *Escherichia coli* from human beings and animals, 465
- Infectivity assay of foot-and-mouth disease virus in pigs, 419
- Isolation of Coxsackie A viruses from human sera and mosquitoes in Fiji, 451
- Lice in clothing or bedding, a simple fumigation method for disinfection, 45

- Mathematical analysis of concurrent epidemics of yaws and chickenpox, 431
 Mosquitoes, survival of *Toxoplasma* in, 347
 Mycoplasma antibody, a colour test for the measurement of, 91
Mycoplasma hominis, the distribution of complement-fixing antibody and growth-inhibiting antibody to, 441
- Norbormide, the toxicity and acceptability of to wild *Rattus norvegicus*, 275
 Nucleic acid of African horse sickness virus, 255
- Opaque colony variation in group A streptococci, 185
- Pig-bel syndrome in man in New Guinea; ecology and epidemiology, 375
 Pneumococcal types, significance of, 129
 Pneumococcal type transformation, the discovery of, 177
 Poliovaccination in infancy, a study of, 105
Pseudomonas aeruginosa infection in premature infants, 121
- Quadruple vaccine, further studies with, 475
 Quantal and graded dose-responses of bluetongue virus: a comparison of their sensitivity as assay methods for neutralizing antibody, 231
- Rectal swabs and faecal cultures, efficiency of in detecting salmonella carriers, 261
 Rough *Salmonella dublin* variant, immunity produced by, in salmonella infections in guinea-pigs, 357
- Salmonella carriers, the efficiency of cultures of rectal swabs and faecal specimens in the detection of, 261
 Salmonellae and shigellae in a group of urban South African Bantu school children, 245
 Salmonellas of subgenus III (Arizona) isolated from abattoirs in England and Wales, 271
 Salmonellas, a method of secondary enrichment for, 361
Salmonella in a closed pig herd, an epidemiological study of, 411
Salmonella enteritidis infections, the microbiological and epidemiological properties of, 9
 Secondary enrichment for salmonellas; a method independent of selectively toxic chemicals, 361
- Semliki Forest virus, the influence of unheated guinea-pig serum on its neutralization by various antisera, 33
 Sensitivity of bluetongue virus to lipid solvents, trypsin and pH changes and its serological relationship to arboviruses, 339
Shigella sonnei, a new colicine type (type 15), 305
 Significance of pneumococcal types, 129
 Skin resistance and hypersensitivity following inactivated vaccinia virus vaccines in rabbits, 23
- Sonne dysentery, studies on the epidemiology of, 287
 Staphylococcal infection in thoracic surgery: experience in a subdivided ward, 321
Staphylococcus aureus, acquisition by patients undergoing cytotoxic therapy in an ultra-clean isolation unit, 501
- Streptococcal infection in young pigs, I, 205; II, 213
 Streptococcal school outbreaks: a method of investigation and control, 221
 Streptococci of group A; the nature of the opaque colony variation, 185
 Streptococci of group B; type-specific polysaccharide antigens, 191
 Swimmers, microbial pollution of water by, 489
- Thoracic surgery, staphylococcal infection in, 321
 Tern virus, the isolation and classification of, 309
 Toxicity and acceptability of norbormide to wild *Rattus norvegicus*, 275
 Toxoplasma antibodies in sera from Greece and Africa, 75
Toxoplasma, survival in infected mosquitoes, 347
 Toxoplasmin sensitivity: subnormality and environment, 405

- Trachoma vaccines, immunogenicity experiments in baboons, I, 513; II, 529
Type-specific polysaccharide antigens of group B streptococci, 191
Type transformation in pneumococci, discovery of, 177
- Vaccine, quadruple, further studies with, 475
Vaccine, diphtheria-tetanus-poliomyelitis, further studies with, 485
Vaccines, inactivated vaccinia virus, in rabbits, 23
Vaccines, virus, produced in chick cells; contaminant viruses in, 1
Variant strain of foot-and-mouth disease virus isolated during passage in partly immunized cattle, 397
Viruses: African horse sickness, 255; bluetongue, 231, 339; Coxsackie A, 451; echo, 53; foot-and mouth disease, 81, 397, 419; Semliki Forest, 33; Tern, 309; vaccinia, 23
- Water, microbial pollution of by swimmers, 489
- Yaws and chickenpox, concurrent epidemics of, 431
