Cloth Edition: ISBN 0-917586-37-9

ISSN: 0270-8647

Manufactured in the United States of America

CONTENTS

Preface		ix
Synopsis		xi
Part I. Presidential Address		
1.	<i>Viewing Science</i> Ronald N. Giere, University of Minnesota	3
Part II. Philosophy of Psychology as Philosophy of Science		
2.	<i>Philosophy of Psychology as Philosophy of Science</i> Gary Hatfield, University of Pennsylvania	19
3.	<i>Philosophy of Psychology Meets the Semantic View</i> Valerie Gray Hardcastle, Virginia Polytechnic Institute and State University	24
4.	<i>The Notion of Accuracy in Current Social Perception Research</i> Barbara Von Eckardt, University of Nebraska–Lincoln	35
5.	<i>What is Psychophysics?</i> Lawrence A. Shapiro, University of Wisconsin, Madison	47
Part III. Fields, Particles and Quantum Theories		
6.	<i>The History and Philosophy of Quantum Field Theory</i> Don Robinson, University of Illinois at Chicago	61
7.	<i>What are Quanta, and Why Does it Matter?</i> Nick Huggett, University of Kentucky	69
8.	<i>The Vacuum in Relativistic Quantum Field Theory</i> Michael Redhead, University of Cambridge	77
9.	<i>A Dissolution of the Problem of Locality</i> Simon Saunders, Harvard University	88
Part IV. Feminist Perspectives on Special Sciences		
10.	<i>Methodological Norms in Traditional and Feminist Philosophy of Science</i> Elizabeth Potter, Mills College	101
11.	<i>Methodological Issues in the Construction of Gender as a Meaningful Variable in Scientific Studies of Cognition</i> Phyllis Rooney, Oakland University	109

12.	<i>Feminist Values and Cognitive Virtues</i> Lynn Hankinson Nelson, Rowan College of New Jersey and Jack Nelson, Temple University	120
Part V. Do Explanations or Predictions (or Neither) Provide More Evidential Support for Scientific Theories?		
13.	<i>Dynamics of Theory Change: The Role of Predictions</i> Stephen G. Brush, University of Maryland, College Park	133
14.	<i>Empirical and Rational Components in Scientific Confirmation</i> Abner Shimony, Boston University	146
15.	<i>Explanation v. Prediction: Which Carries More Weight?</i> Peter Achinstein, Johns Hopkins University	156
Part VI. Search Heuristics, Experimentation, and Technology in Molecular and Cell Biology		
16.	<i>Deciding on the Data: Epistemological Problems Surrounding Instruments and Research Techniques in Cell Biology</i> William Bechtel, Washington University in St. Louis	167
17.	<i>Reasoning Strategies in Molecular Biology. Abstractions, Scans and Anomalies</i> Lindley Darden, University of Maryland at College Park and Michael Cook, Rockefeller University	179
18.	<i>Interactions Among Theory, Experiment, and Technology in Molecular Biology</i> Kenneth F. Schaffner, George Washington University	192
Part VII. Foundational Projects in Mathematics at the Beginning of the 20th Century in Their Systematic and Historical Contexts		
19.	<i>The Contemporary Interest of an old Doctrine</i> William Demopoulos, The University of Western Ontario	209
20.	<i>Poincaré on Mathematics, Intuition and the Foundations of Science</i> Janet Folina, Macalester College	217
21.	<i>Poincaré, Richard's Paradox and Indefinite Extensibility</i> Peter Clark, University of St. Andrews	227

Part VIII. Science and Philosophy in the Classic Texts		
22.	<i>Putting Philosophy of Science to the Test: the Case of Aristotle's Biology</i> James G. Lennox, University of Pittsburgh	239
23.	<i>Methodological Judgment and Critical Reasoning in Galileo's Dialogue</i> Maurice A. Finocchiaro, University of Nevada, Las Vegas	248
24.	<i>Newton's Opticks as Classic: On Teaching the Texture of Science</i> Dennis L. Sepper, University of Dallas	258
25.	<i>Scientific Classics and Their Fates</i> Ernan McMullin, University of Notre Dame	266
Part IX. Integrating Cognitive and Social Models of Science		
26.	<i>Psychological, Social, and Epistemic Factors in the Theory of Science</i> Alvin I. Goldman, University of Arizona	277
27.	<i>Multivariate Models of Scientific Change</i> Miriam Solomon, Temple University and The Dibner Institute	287
28.	<i>Explaining Scientific Change: Integrating the Cognitive and the Social</i> Paul Thagard, University of Waterloo	298
29.	<i>Shifting Frames: From Divided to Distributed Psychologies of Scientific Agents</i> Peter J. Taylor, Cornell University	304
Part X. Policy Issues in Human Genetics		
30.	<i>Who's Afraid of the Human Genome Project?</i> Philip Kitcher, University of California at San Diego	313
31.	<i>Toward a Realistic Assessment of PKU Screening</i> Diane B. Paul, University of Massachusetts at Boston	322
32.	<i>Subversive Reflections on the Human Genome Project</i> Alex Rosenberg, University of California, Riverside	329
Part XI. Quantum Mechanics: Decoherence and Related Matters		
33.	<i>Science, Probability, and the Proposition</i> Bas C. van Fraassen, Princeton University	339
34.	<i>Convergence in Radical Probabilism</i> Brian Skyrms, University of California, Irvine	349

Part XII.	Unity and Disunity in Physics and Biology	
35.	<i>The Metaphysics of the Disunified World</i> Nancy Cartwright	357
36.	<i>Unified Theories and Disparate Things</i> Margaret Morrison, University of Toronto	365
37.	<i>Against Scientific Imperialism</i> John Dupré, Stanford University	374
38.	<i>Pluralism, Normative Naturalism, and Biological Taxonomy</i> Marc Ereshefsky, University of Calgary	382
Part XIII.	Philosophy of Psychology and Perception	
39.	<i>Discourse, Practice, Context: From HPS to Interdisciplinary Science Studies</i> Alison Wylie, University of Western Ontario	393
40.	<i>Engaging Science Through Cultural Studies</i> Joseph Rouse, Wesleyan University	396
41.	<i>Contextualizing Science: From Science Studies to Cultural Studies</i> Vassiliki Betty Smocovitis, University of Florida	402
42.	<i>After Representation: Science Studies in the Performative Idiom</i> Andy Pickering, University of Illinois at Urbana-Champaign	413
43.	<i>HPS and the Classic Normative Mission</i> Brian S. Baigrie, The University of Toronto	420
Part XIV.	The Technological Institute	
44.	<i>Science, Technology and Experiments; the Natural Versus the Artificial</i> Peter Kroes, University of Technology, Eindhoven	431
45.	<i>Meaning in a Material Medium</i> Davis Baird, University of South Carolina	441
45.	<i>Commentary on the Papers of Davis Baird, Peter Kroes, and Michael Dennis</i> Allan Franklin, University of Colorado	452
