## OUT OF THE SHADOWS POLITICAL ACTION AND THE INFORMAL ECONOMY IN LATIN AMERICA

Edited by Patricia Fernández-Kelly  
and Jon Shefner

"This volume makes a crucial contribution to the scholarly and policy literatures by emphasizing the embeddedness of informal economies in state-society arrangements that cut across local, national, and transnational terrains of the Latin American and global political economies. The volume represents essential reading for scholars, policy specialists, students, and others who seek to make sense of the politico-social consequences of deepening inequality and poverty in the contemporary world."
