

# INTERNATIONAL JOURNAL OF MICROWAVE AND WIRELESS TECHNOLOGIES

## CONTENTS

### POWER AMPLIFIERS

**RF Monte Carlo calculation of power amplifier efficiency as function of signal bandwidth**  
Rik Jos

125

### SI-BASED DEVICES AND IC TECHNOLOGIES

**Power performance of 65 nm CMOS integrated LDMOS transistors at WLAN and X-band frequencies**  
Sara Lotfi, Olof Bengtsson and Jörgen Olsson

135

### ENERGY HARVESTING

**Enhancing RF-to-DC conversion efficiency of wideband RF energy harvesters using multi-tone optimization technique**  
Véronique Kuhn, Fabrice Seguin, Cyril Lahuec and Christian Person

143

### PASSIVE COMPONENTS AND CIRCUITS

**A true-time-delay networks design technique**  
Alberto Leggeri, Davide Passi and Franco Di Paolo

155

**Broadband six-way out-of-phase SIW power divider**  
Kaijun Song, Abdullahi Nura Ahmed, Bingkun Hu, Yu Zhu, Fulong Chen and Yong Fan

165

**A dual-band unequal power divider with flexible choice of implementation**

Cong Tang, Yong Fan and Kaijun Song

171

**E-band cavity diplexer based on micromachined technology**  
Valeria Nocella, Luca Pelliccia, Paola Farinelli, Roberto Sorrentino, Mario Costa, Dai Yufeng and Zhou Yanzhao

179

**A wideband right-angle transition between thin substrate integrated waveguide and rectangular waveguide based on multi-section structure**

Teng Li and Wenbin Dou

185

### RF MEMS

**Computation of intermodulation distortion in RF MEMS variable capacitor circuits using moments**  
Dani A. Tannir

193

### MICROWAVE PHOTONICS

**Tunable microwave photonic transversal filter**

Joseph W. Haefner, Christopher T. Middlebrook, Alexander L. Adams, Charles F. Middleton and J. Richard Desalvo

205

### RADAR SIGNAL PROCESSING

**Utilizing higher moments to detect time-varying target in radar echo with non-stationary background**  
Renzhou Gui

215

### ANTENNA DESIGN, MODELLING AND MEASUREMENTS

**Wideband, High-Efficiency Quasi-Planar Antenna Array For Ku-Band DBS Reception Systems**  
Mustafa Murat Bilgiç and Korkut Yeğin

221

**Novel stacked  $\mu$ -negative material-loaded antenna for satellite applications**

Trushit K. Upadhyaya, Shiv Prasad Kosta, Rajeev Jyoti and Merih Palandöken

229

**Bandwidth enhancement of a planar monopole microstrip patch antenna**

Sudeep Baudha and Dinesh Kumar Vishwakarma

237

**Reactive impedance surface-based broadband circularly polarized Koch fractal boundary microstrip antenna**  
V. V. Reddy and N.V.S.N. Sarma

243

**Analysis of elliptical-disk microstrip patch printed on isotropic or anisotropic substrate materials**

Randa Bedra, Sami Bedra and Tarek Fortaki

251

**CPW-fed printed UWB antenna with open-loop inverted triangular-shaped slot for WLAN band filtering**

Majid Shokri, Wahid Rafii, Saied Karamzadeh, Zhaleh Amiri and Bal Virdee

257

**Cantor fractal-based printed slot antenna for dual-band wireless applications**

Jawad Ali, Seevan Abdulkareem, Ali Hammoodi, Ali Salim, Mahmood Yassen, Mohammed Hussan and Hussain Al-Rizzo

263

**New low-cost broadband CPW-fed planar antenna**

Rachid Dakir, Jamal Zbitou, Ahmed Mouhsen, Abdelwahed Tribak, Amediavilla Sanchez and Mohamed Latrach

271

**Compact multi-band printed antenna with multi-triangular ground plane for WLAN/WiMAX/RFID applications**

Tang Yang, Gao Wen, Gao Jinsong and Feng Xiaoguo

277

**Compact curved half circular disc-monopole UWB antenna**

Ahmed M. Abdelraheem and Mahmoud A. Abdalla

283

**A design of ring-shaped dual-band/multi-band circularly polarized microstrip antenna based on slots mutual coupling**

Farzad Alzadeh, Changiz Ghobadi, Javad Nourinia, Mahdi Dadashi and Rahim Barzegari

291

**Bandwidth enhancement of capacitive fed monopole antenna using parasitic patches**

Kamalaveni Ayyadurai and Ganesh Madhan Muthu

301

**Broadband MIMO antenna for HiperLAN/2, WLAN, and WiMAX applications with high isolation**

Raefat Jallia El Bakouchi, Marc Brunet, Tchanguiz Razban and Abdellah Ghammaz

309

**A novel FGCPW-fed flag-shaped UWB monopole antenna**

Ayman S. Al-Zayed and Shameena V.A.

319

**CPW-fed H-tree fractal antenna for WLAN, WiMAX, RFID, C-band, HiperLAN, and UWB applications**

Abdelati Reha, Abdelkebir El Amri, Othmane Benhammouch, Ahmed Oulad Said, Abdelhakim El Ouadih and Marouane Bouchouirbat

327

**A new simple compact ultra-wideband dielectric resonator antenna with enhanced bandwidth and improved radiation pattern**

Seyyed Hadi Seyyedhatami and Ramazan Ali Sadeghzadeh

335

**A hybrid integrated ultra-wideband/dual-band antenna with high isolation**

Idris Messaoudene, Tayeb A. Denidni and Abdelmadjid Benghalia

341

**Miniaturized bent slotted patch antenna over a reactive impedance surface substrate**

Saurabh Kumar and Dinesh Kumar Vishwakarma

347

**Hybrid MoM-PO analysis of multilayered SIW slot antenna with a dielectric slab radome**

Reza Bayderkhani, Keyvan Forooraghi, Emilio Amieri and Bijan Abbasi-Arand

353

**An UWB dual polarized microstrip fed L-shape slot antenna**

Raghupatruni Venkatsiva Ram Krishna, Raj Kumar and Nagendra Kushwaha

363

**Design of a novel dual ports antenna to enhance sensitivity of handheld RFID reader**

Bo Wang, Yiqi Zhuang, Xiaoming Li and Weifeng Liu

369

**Radome-covered substrate-integrated cavity-backed patch antenna surrounded by dielectric material**

Muhammad Javid Asad and Muhammad Farhan Shafique

379

**A novel quadri-polarization-agile microstrip antenna with polarization synthesizing feeding network**

Yu-Jen Chi and Fu-Chiang Chen

385

### ERRATUM

**Miniaturized bent slotted patch antenna over a reactive impedance surface substrate - ERRATUM**

Saurabh Kumar, Dinesh Kumar Vishwakarma

395
