

SAVE LIVES: Clean **Your** Hands

5 MAY 2009

Invitation to Participate

As part of **Clean Care is Safer Care**, World Health Organization (WHO) is hosting a global hand hygiene awareness event on 5 May 2009

If you want to improve hand hygiene to help save lives by reducing health care-associated infection in your health care facility, register your interest now: <http://www.who.int/gpsc/5may/en/index.html>

You can participate in the 5 May 2009 event by:

- Developing your own activities linked to the WHO global event
- Joining a growing network of health care providers committed to improving hand hygiene
- Promoting and using 'Your 5 moments for hand hygiene'.

Your 5 moments for **HAND HYGIENE**

Help spread the hand hygiene message

Register your interest **NOW**

Tools and materials will be posted on 16 February 2009: <http://www.who.int/gpsc/5may/en/index.html>

A WHO Patient Safety Initiative

FIND THE MICROBE THAT COULD COST THIS PATIENT HER LIFE.

80% of the bacteria that cause infections reside in the first five layers of the patient's own skin! That's why there's ChloraPrep®. ChloraPrep combines the CDC-recommended formulation of 2% CHG with innovative, "hands-off" applicators to provide a more effective system for helping reduce infections associated with skin bacteria. ChloraPrep is fast-acting on a broad spectrum of bacteria, including MRSA, and inhibits bacterial growth for at least 48 hours.^{2,3} **Help stop infection from the start with ChloraPrep.**

- ▶ **PERSISTENT** antimicrobial activity inhibits the growth of bacteria for at least 48 hours^{2,3}
- ▶ **PROVEN** in 36 published studies as best practice for helping reduce the risk of infection
- ▶ **RECOMMENDED** use of 2% CHG formulation in at least 11 evidence-based guidelines, including the CDC, SCAI and IHI
