1. *Mathematical Proceedings* is published once every two months. Three issues form a volume and two volumes are published each year. The 1975 subscription price (which includes postage) of a volume is £12 net (U.S. \$38.00 in the U.S.A. and Canada).

2. *Scope of the Mathematical Proceedings.* Papers which advance knowledge of mathematics, either pure or applied, will be considered by the Editorial Committee. The work must be original and not submitted to another journal. Papers should be sent to the Editor, *Mathematical Proceedings*, Cambridge Philosophical Society, Bene't Street, Cambridge CB2 3PY, England. Papers in languages other than English should be sent only after prior consultation with the Editor.

3. *Correction of proofs.* If a paper is accepted, the author will receive in due course page proofs which he is requested to correct and return within seven days. To avoid undue disturbance of type, when words or phrases are added in proof, others of equal length should be removed if possible.

If any corrections are made in the proofs, the Council reserve the right to make a charge towards the cost.

4. Authors may receive on request 100 free offprints (for each set of authors in the case of a joint paper). Alternatively authors may have 50 free offprints in covers. Further copies may be obtained at reasonable cost. An order form is included with the proofs of each paper.

5. Detailed suggestions for the preparation of manuscripts are given on the inside back cover.

6. Second class postage paid at New York, N.Y.
