## Is Your Library System a Prickly Subject?

High support charges and costly upgrades swallow up your budget, whilst poor system design wastes your time and inevitably leads to a replacement.

Choosing the right system in the first place is the best way to avoid such a heavy drain on your budget and time. Heritage users are provided with a flexible system and high quality support, including regular free upgrades, at a very reasonable cost. And they know that their training investment in the system is safe because we will continue to develop Heritage, not replace it with something completely different.

Talk to one of our team and find out how Heritage could save you time and money. Look closer at all library software systems, then choose Heritage.
