MEDICAL GRADUATES' COLLEGE AND POLYCLINIC,

22, Chenies Street, Gower Street, London, W.C.

The **EASTER SESSION** of Practical Classes will commence on **Monday, April 30th,**
and terminate **Friday, June 8th.**

Practical Otology—Dr. J. DUNDAS GRANT and Mr. W. STUART-LOW. Mondays, 5 to 7 p.m.

Practical Laryngology—Dr. W. JOBSON HORNE. Wednesdays, 5 to 7 p.m.

Practical Ophthalmology—Dr. R. E. BICKERTON. Fridays, 5 to 7 p.m.

Examination of Nervous System—Dr. HARRY CAMPBELL. Fridays, 2 to 3 p.m.

Röntgen Rays—Dr. HARRISON LOW. Tuesdays, 3 to 4 p.m.

Applied Anatomy—Dr. J. E. SQUIRE and Mr. P. L. DANIEL. Tuesdays and Thursdays, 6 to 7 p.m.

Clinical Microscopy—Mr. HAYWARD PINCH. Mondays and Wednesdays, 2 to 3 p.m.

Practical Gynæcology—Dr. F. J. McCANN. Mondays and Thursdays, 3 to 4 p.m.

Fee for each class **£1** *is.*, excepting Practical Gynæcology, the fee for which is **£2** *2s.*
Composition fee for all eight classes, **£7** *7s.*

Gentlemen desirous of joining any of these classes are requested to send their names to the undersigned, from whom any further information may be obtained.

A. E. HAYWARD PINCH, F.R.C.S., Medical Superintendent.

BOROBENPHENE-HEIL.

Borobenphene-Heil is a powerful, safe, reliable, non-irritating and pleasant antiseptic, composed of Boracic Acid, Benzoic Acid sublimed from Siamese Gum Benzoin, Phenol and Glycerine, all in the state of highest purity, and constitutes **the ideal antiseptic**, of sufficient strength to render aseptic any part of the human body.

Case No. 28.—Female infant of ten months. Bottle-fed. There was a tendency to chronic diarrhœa extending for six months becoming aggravated by the difficulties of teething. Was cross and fretful, with signs of considerable pain. Evacuations watery, greenish, and occasionally containing pieces of partially digested food. Movements numbered from twelve to fourteen a day, some merely diaper stains. Child undersized and much emaciated. A modified milk diet was prescribed, with direction for hygiene, and the Borobenphene-Heil prescription ordered in doses of one teaspoonful every three hours. Improvement and convalescence were immediate and rapid, accompanied with corresponding improvement in appearance.

GLYCOBENPHENE-HEIL.

Glycobenphene-Heil is a powerful, safe, reliable, non-irritating and pleasant antiseptic, of the same composition as Borobenphene, the proportion of the constituents being somewhat changed, and contains in addition absolutely chemically pure Oxide of Zinc. **It is for external use only**, and, being a mixture and not a solution, it should always be shaken before applying it. Its power of preventing the development of bacteria and the decomposition of animal and vegetable matter and of destroying bacteria is almost as great as that of Borobenphene-Heil.

Case No. 11.—A young lady, aged 21 years, had had acne for the past three years, the eruption confining itself to her face, which was most disgusting to behold, and so mortified her that she refrained from appearing among people any more than she could help. A few applications of Glycobenphene-Heil cured the eruptions, and now more than a month has elapsed since the last application, and no more have appeared.

Messrs. F. NEWBERY & SONS, Ltd., 27 & 28, Charterhouse Square, London, E.C., British Representatives of the Manufacturers, **HENRY HEIL CHEMICAL COMPANY, ST. LOUIS,** will cheerfully furnish an Original Bottle each of **BOROBENPHENE** and **GLYCOBENPHENE** free of charge to any Physician applying for same. Literature mailed on application to **HENRY HEIL CHEMICAL COMPANY.**
