

PROCEEDINGS  
OF THE  
ROYAL SOCIETY OF EDINBURGH

PROCEEDINGS  
OF  
THE ROYAL SOCIETY  
OF EDINBURGH

Section A (Mathematical and Physical Sciences)

VOL. LXIV

1953-1957

PUBLISHED BY  
OLIVER & BOYD  
EDINBURGH: TWEEDDALE COURT  
LONDON: 39A WELBECK STREET, W. 1

1957

# CONTENTS

NO.	PAGE
*1. On Kuiper's Theory of the Origin of the Solar System. By D. ter Haar, Department of Natural Philosophy, The University, St Andrews. Issued separately September 30, 1953, . . . . .	1
2. Asymptotic Renewal Theorems. By Walter L. Smith, M.A., Ph.D.(Cantab.), Statistical Laboratory, University of Cambridge. <i>Communicated by</i> Dr John Wishart. Issued separately January 25, 1954, . . . . .	9
3. The Problem of Two Bodies in Whitehead's Theory. By G. L. Clark, Ph.D., Bedford College, N.W.I. <i>Communicated by</i> Sir Edmund Whittaker. Issued separately January 25, 1954, . . . . .	49
*4. Expansion of a Finite One-dimensional Gas Cloud into a Vacuum. By A. G. Mackie, M.A.(Edin.), Ph.D.(St Andrews). <i>Communicated by</i> Professor E. T. Copson. (With Four Text-figures.) Issued separately March 30, 1954, . . . . .	57
*5. Interpolatory Methods for Theorems of Vitali and Montel Type. By N. A. Bowen and A. J. Macintyre, University of Aberdeen. Issued separately March 30, 1954, . . . . .	71
6. The Maximum Term of an Entire Series. By S. M. Shah and S. K. Singh, Aligarh, India. <i>Communicated by</i> Dr A. J. Macintyre, University of Aberdeen. Issued separately September 8, 1954, . . . . .	80
7. Tidal Charts Based on Coastal Data: Irish Sea. By A. T. Doodson, J. R. Rossiter and R. H. Corkan, Liverpool Observatory and Tidal Institute. (With Seven Text-figures.) Issued separately September 8, 1954, . . . . .	90
8. Riemann Extensions which have Kähler Metrics. By E. M. Patterson, United College, University of St Andrews. <i>Communicated by</i> Professor H. S. Ruse. Issued separately December 31, 1954, . . . . .	113
9. On the Geometry of $\mathcal{E}$ -Matrices. By H. S. Ruse, M.A., D.Sc., University of Leeds. Issued separately December 31, 1954, . . . . .	127
*10. A Configuration of Points and Spheres in Four-dimensional Space. By L. M. Brown, M.Sc., Ph.D., Mathematical Institute, University of Edinburgh. Issued separately March 10, 1955, . . . . .	145
*11. Theory of Indices for Non-Associative Algebra. By I. M. H. Etherington, B.A., D.Sc., Mathematical Institute, University of Edinburgh. Issued separately March 10, 1955, . . . . .	150

NO.	PAGE
12. On the Theory of Unimolecular Gas Reactions: A Quantum Harmonic Oscillator Model. By N. B. Slater, The University, Leeds. Issued separately September 22, 1955, . . . . .	161
*13. A Statistical Examination of the Centroid Method. By D. N. Lawley, M.A., D.Sc., University of Edinburgh. Issued separately March 21, 1956, . . . . .	175
*14. Studies in Practical Mathematics. VIII. On the Iterative Methods of Lin and Friedman for Factorizing Polynomials. By A. C. Aitken, D.Sc., F.R.S., Mathematical Institute, University of Edinburgh. Issued separately March 21, 1956, . . . . .	190
*15. Bounds for the Indices of Nilpotent and Solvable Lie Algebras. By E. M. Patterson, United College, University of St Andrews. <i>Communicated by</i> Dr D. E. Rutherford. Issued separately March 21, 1956, . . . . .	200
16. Two Hologram Methods in Diffraction Microscopy. By G. L. Rogers, M.A., Ph.D., Department of Physics, Victoria University College, Wellington, N.Z. <i>Communicated by</i> Professor G. D. Preston. (With Five Text-figures.) Issued separately March 21, 1956, . . . . .	209
17. Invariant Matrices and the Geometry of Numbers. By K. Mahler, F.R.S., Department of Mathematics, Manchester University. <i>Communicated by</i> Professor A. C. Aitken, F.R.S. Issued separately August 3, 1956, . . . . .	223
*18. Recent Oceanographical Investigations in the Faroe-Shetland Channel. By John B. Tait, Ph.D., D.Sc., Scottish Home Department, Fisheries Division, Marine Laboratory, Aberdeen. (With Twenty-two Text-figures.) Issued separately February 25, 1957, . . . . .	239
19. Metrisable Lie Groups and Algebras. By S-T. Tsou and A. G. Walker, Department of Pure Mathematics, University of Liverpool. Issued separately May 22, 1957, . . . . .	290
20. On the Theory of Binary Fluid Mixtures. By F. J. Pearson and G. S. Rushbrooke, Physics Department, King's College, Newcastle upon Tyne, in the University of Durham. Issued separately May 22, 1957, . . . . .	305
*21. Index Polynomials and Bifurcating Root-Trees. By H. Minc, M.A.(Edin.). <i>Communicated by</i> Dr I. M. H. Etherington. Issued separately September 9, 1957, . . . . .	319
*22. On Methods of Summability Based on Power Series. By D. Borwein, Department of Mathematics, St Salvator's College, University of St Andrews. <i>Communicated by</i> Dr D. E. Rutherford. Issued separately September 9, 1957, . . . . .	342
23. Marine Research—The Work of the National Institute of Oceanography. By G. E. R. Deacon, C.B.E., D.Sc., F.R.S. (With One Plate and Two Text-figures.) Issued separately September 9, 1957, . . . . .	350

*Contents*

vii

NO.	PAGE
*24. Conditions for the Ergodicity of Non-homogeneous Finite Markov Chains. By J. L. Mott, University of Edinburgh. <i>Communicated by</i> Professor A. C. Aitken, F.R.S. Issued separately September 9, 1957, . . . . .	369
25. The Determination of Temperature Gradients over the Greenland Ice Sheet by Optical Methods. By R. A. Hamilton, O.B.E., M.A. <i>Communicated by</i> J. Paton, M.A. Issued separately September 9, 1957, . . . . .	381

\* The thanks of the Society are due to the Carnegie Trust for the Universities of Scotland for grants towards the costs of the illustrations, tables, etc. in these papers.

## INSTRUCTIONS TO AUTHORS (*continued*)

The overall space available for figures and plates is  $9\frac{1}{2}'' \times 7\frac{1}{2}''$  in *Transactions* and  $7\frac{1}{2}'' \times 4\frac{3}{4}''$  in *Proceedings*.

**Photographs** should be unmounted glossy black and white prints, marked on the back with the name of the author, number of the figure, and an indication of the top. Prints should not be trimmed or cut out. Authors should suggest the arrangement of the figures on each plate, either by a diagram or a paste-up of rough prints, with indication of any lettering to be inserted.

**Lettering** must be in black ink in neat and legible style, or lightly written in pencil.

**Indicating Lines and Arrows** required on wash drawings or photographs should have the point marked by a pin-hole, and must be drawn on the back or on a covering tissue and not on the photograph or drawing. On line drawings such lines should be drawn thin but firmly.

**Graphs** should be drawn on white Bristol board or on squared paper ruled in faint blue lines: no other colour ruling is suitable. Since blue lines do not appear in reproductions, any cross-lines required must be drawn. If a tracing of a graph constructed on an unsuitable grid is submitted, white tracing paper should be used.

**Numerical values.** In papers concerned with the biological sciences ALL numerical values must be accompanied by their decimal equivalents.

**Tables.** Tabular matter must be kept to a minimum. No paper should present both tables and corresponding graphs, except where good reason can be given.

**Duplicates.** When the author can conveniently do so, it is desirable that duplicates of illustrations should be supplied for the use of the referees.

**Proofs** of papers will be sent to authors or communicators to the addresses indicated in correspondence or on MSS. The cost of authors' corrections in excess of 5 per cent. of the printer's charges for the setting of a particular paper will be charged to the authors. Proofs should, if possible, be returned within one week to *The Secretary, Royal Society of Edinburgh, 22 George Street, Edinburgh, 2*, and *not to the printer*. To prevent delay, authors who are abroad should, if possible, appoint someone in this country to correct proofs.

**Offprints.** As soon as a *Transactions* paper, or the sheet in which the last part of a *Proceedings* paper appears, is ready for press, copies of offprints, in covers bearing the title of the paper and the name of the author, are printed and placed on sale. The date of such separate publication is printed on each paper. Authors of papers will receive twenty-five offprints free, if they so desire. Additional offprints may be obtained at a fixed scale of prices given on a form attached to the first proof. To prevent disappointment, especially if a paper contains plates, authors should, as soon as possible, notify the Secretary of the number of additional copies required.

**Indexes.** To facilitate the compilation of indexes, and to secure due attention being given to the important points of a paper in Catalogues of Scientific Literature, authors are requested to supply to the Secretary, with the final proofs of papers, a brief index (on the model given below) of the points in a paper which are considered new or important. Indexes will be edited by the Secretary for publication in each volume of the *Transactions* and *Proceedings*.

### MODEL INDEX

Houstoun, R. A.—A measurement of the velocity of light. *Proc. Roy. Soc. Edin.*, A, 63, 1949–50, 95–104.

Light, A measurement of the velocity of.

R. A. Houstoun. *Proc. Roy. Soc. Edin.*, A, 63, 1949–50, 95–104.

Velocity of Light, A measurement of the.

R. A. Houstoun. *Proc. Roy. Soc. Edin.*, A, 63, 1949–50, 95–104.

Authors are advised, before sending in papers, to consult *Notes on the Preparation of Papers to be communicated to the Royal Society of London* (1951), and especially the chapters dealing with symbols, signs, and abbreviations recommended for British Scientific Publications. A copy may be had on application to the Secretary.

*The Papers published in this part of the PROCEEDINGS may be had separately, on application to the Publishers, at the following Prices:—*

No. XXI . . . . .	Price 5s. 6d.	No. XXIV . . . . .	Price 4s. od.
No. XXII . . . . .	„ 2s. 6d.	No. XXV . . . . .	„ 5s. 6d.
No. XXIII . . . . .	„ 5s. 6d.		

**Fellows of the Society purchasing publications for their own use will be allowed a special discount of 33½ per cent on the stated prices (see Law XVI).**
