16. Abstract <p>This document contains the proceedings of the International Astronomical Union Colloquium No. 124 held at the University of Alabama at Tuscaloosa, December 4-7, 1989. The purpose of the conference was to describe the current state of our observational and theoretical knowledge of interacting galaxies, with a particular emphasis on galaxies in pairs. The presentations and discussions embraced most of the topics of extragalactic astronomy, from star formation to the origin of active galactic nuclei.</p>
