

CONTENTS

Breeding and genetics

- Zhao, F. P., Jiang, L., Gao, H. J., Ding, X. D. and Zhang, Q.
Design and comparison of gene-pyramiding schemes in animals 1075

- Pollott, G. E.
Genetic parameters of a biological lactation model: early lactation and secretion rate traits of dairy heifers 1085

- Wolf, J.
Genetic correlations between production and semen traits in pig 1094

- Carlén, E., Grandinson, K., Emanuelson, U. and Strandberg, E.
Random regression models for genetic evaluation of clinical mastitis in dairy cattle 1100

Nutrition

- Patterson, J. M., Lambert, B. D., Muir, J. P. and Foote, A. P.
Effects of protein and energy supplementation on growth, forage intake, forage digestion and nitrogen balance in meat goat kids 1109

- Brossard, L., Dourmad, J.-Y., Rivest, J. and van Milgen, J.
Modelling the variation in performance of a population of growing pig as affected by lysine supply and feeding strategy 1114

Physiology and functional biology of systems

- Zamaratskaia, G., Zlabek, V., Chen, G. and Madej, A.
Modulation of porcine cytochrome P450 enzyme activities by surgical castration and immunocastration 1124

- Gbore, F. A.
Reproductive organ weights and semen quality of pubertal boars fed dietary fumonisin B₁ 1133

- Sauleau, P., Lapouble, E., Val-Laillet, D. and Malbert, C.-H.
The pig model in brain imaging and neurosurgery (review) 1138

Behaviour, welfare and health

- Phillips, C. J. C., Wojciechowska, J., Meng, J. and Cross, N.
Perceptions of the importance of different welfare issues in livestock production 1152

- Morgan, C. A., McIlvaney, K., Dwyer, C. M. and Lawrence, A. B.
Assessing the welfare challenges to out-wintered pregnant suckler cows 1167

- Brickell, J. S., McGowan, M. M., Pfeiffer, D. U. and Wathes, D. C.
Mortality in Holstein-Friesian calves and replacement heifers, in relation to body weight and IGF-I concentration, on 19 farms in England 1175

Farming systems and environment

- Banchero, G. E., Quintans, G., Lindsay, D. R. and Milton, J. T. B.
A pre-partum lift in ewe nutrition from a high-energy lick or maize or by grazing *Lotus uliginosus* pasture, increases colostrum production and lamb survival 1183

Product quality, human health and well-being

- Andersen, C., Nielsen, T. S., Purup, S., Kristensen, T., Eriksen, J., Søgaard, K., Sørensen, J. and Fretté, X. C.
Phyto-oestrogens in herbage and milk from cows grazing white clover, red clover, lucerne or chicory-rich pastures 1189

- Missotten, J., De Smet, S., Raes, K. and Doran, O.
Effect of supplementation of the maternal diet with fish oil or linseed oil on fatty-acid composition and expression of $\Delta 5$ - and $\Delta 6$ -desaturase in tissues of female piglets 1196

- Bahelka, I., Oravcová, M., Peškovičová, D., Tomka, J., Hanusová, E., Lahučký, R. and Demo, P.
Comparison of accuracy of intramuscular fat prediction in live pigs using five different ultrasound intensity levels 1205

CAMBRIDGE

JOURNALS

Knowledge is no longer shelved

The *Cambridge Journals Digital Archive* contains more than 160 journals, more than 3 million pages and more than 8 million linked references. Knowledge is now more visible and more searchable than ever.

Editor-in-chief
P.C. Calder, University of Southampton, UK

British Journal of Nutrition is a leading international peer-reviewed journal covering research on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. The journal recognises the multidisciplinary nature of nutritional science and includes material from all of the specialities involved in nutrition research, including molecular and cell biology and the emerging area of nutritional genomics.
