INTRODUCING CURRENT RESEARCH ON THE WEB

After lengthy discussions, the Society for American Archaeology Executive Board has decided to place Current Research on the SAA Web site, beginning July 1997. Initially, Web materials will be updated four times per year. Teresita Majewski (Statistical Research, P.O. Box 31865, Tucson, AZ 85751) will continue to act as Current Research coordinator. Assistant editors should submit information from their regions to the coordinator by the end of the second month of every quarter (i.e., at the end of February, May, August, and November). Individual contributors would need to prepare and submit their information to the assistant editor for their region well in advance of that deadline. The "rebirth" of Current Research depends on you. Consult the relevant Web page at <http://www.saa.org/Publications/publications.html> for up-to-date information on assistant editors, addresses, and deadlines. The Current Research information page, which has appeared in past issues of *American Antiquity*, will return with the next issue. More details on the development of Current Research on the Web will appear in a future issue of the *SAA Bulletin*.

NOTICE TO AUTHORS

American Antiquity publishes original papers on the archaeology of the New World and on archaeological method, theory, and practice worldwide. Authors of papers on Latin American topics are encouraged to submit their work to *Latin American Antiquity*. Papers on Latin American archaeology addressing broad methodological, theoretical, or comparative issues may be accepted by either journal after consultation with the editors. Authors submit manuscripts to the editor for consideration as ARTICLES, REPORTS, COMMENTS, or FORUM essays. REVIEWS and BOOK NOTES are solicited by the respective associate editors. Effective July 1, 1996, OBITUARIES may be submitted to the editor, *SAA Bulletin*, for publication (see *SAA Bulletin* March/April 1996, p. 7, for further details).

Authors should submit an original and four copies of their manuscripts, including all figures, tables, references, and notes. Detailed information on policy, style, and technical matters of manuscript preparation is given in the "Editorial Policy, Information for Authors, and Style Guide for *American Antiquity* and *Latin American Antiquity*," which appeared in the October 1992 issue (57:749-770) and can be read on the World Wide Web at <http://www.saa.org/Publications/StyleGuide/styframe.html>.

The editor reserves the right to evaluate manuscripts (with or without peer review) for appropriate subject matter, quality, length, and compliance with the style guide. Manuscripts may be returned to authors if they fail to meet expectations or conform to these guidelines. Manuscripts are evaluated by the editor in consultation with peer referees, as appropriate. The editor has the final responsibility for all decisions regarding manuscripts. The review process generally takes a minimum of two to four months. Authors will be notified as soon as a decision is reached to accept (outright or with revisions) or reject a manuscript.

To ensure the prompt receipt and handling of manuscripts, please send them to the editor-designate (see below). Inquiries regarding the style guide and the production of the journal should be directed to: Janet Walker, Manager, Publications, Society for American Antiquity, 900 Second Street, N.E., Suite 12, Washington, DC 20002-3557.

American Antiquity is abstracted or indexed in *Abstracts in Anthropology*; *Academic Search*; *America*; *History and Life*; *Anthropological Literature*; *Art Index*; *ASTIS Bibliography*; *ASTIS Current Awareness Bulletin*; *Book Review Index*; *Ceramic Abstracts*; *Ethnoarts Index*; *Expanded Academic Index*; *GeoRef*; *Hispanic American Periodicals Index*; *Historical Abstracts*; *Humanities Index*; *International Bibliography of Social and Cultural Anthropology*; *International Bibliography of the Social Sciences*; *Middle East, Abstracts and Index*; *Social Sciences Citation Index*; and *SportSearch*.
