# 13th World Congress on **Disaster+Emergency** Medicine

Melbourne, Australia  
6 - 10 May 2003

[www.wcdem2003.com](http://www.wcdem2003.com)

WADEM invites practitioners, researchers, educators, administrators and government officials involved in disaster medicine, from the perspectives of pre-hospital care, emergency medicine, disaster planning and relief, military or humanitarian medicine, to Melbourne for WCDEM-13. You will have an opportunity to benefit from stimulating and informative scientific sessions, workshops, networking and the associated social events.

## The Congress Program will explore and contribute to the WADEM Task Forces:

- + Disaster Planning
- + Refugees & Displaced Populations
- + Medical Response to Terrorism
- + Emerging Infections
- + Disaster Public Health
- + Psychosocial Aspects of Disasters
- + NBC Hazards
- + Landmines
- + Children in Disasters

## Main Congress themes will also include:

- + WADEM's Utstein Template for evaluating disaster management response
- + Recent international emergencies and disasters
- + Natural disasters and disaster medicine in the Oceania region
- + Effective models for international and inter-disciplinary responses in emergencies and disasters
- + The role of military health teams in emergencies and disasters
- + Telehealth and communication technologies in disasters
- + Bio-ethics in disasters
- + Mass Gatherings
- + Research, education, information/data clearing houses and new technologies in disaster medicine
- + Focused sessions for nurses, paramedics, fire and rescue personnel, local government officials and emergency services volunteers

Register your interest, obtain more information and submission dates for abstracts at [www.wcdem2003.com](http://www.wcdem2003.com)

# PREHOSPITAL and DISASTER MEDICINE

The Official Journal of  
The World Association for Disaster and Emergency Medicine (WADEM)  
and the  
Nordic Society of Disaster Medicine

*Prehospital and Disaster Medicine* is a peer-reviewed international medical journal devoted to the publication of Disaster and Humanitarian Medicine research and education. The principal mission of *Prehospital and Disaster Medicine* (PDM) is the distribution of information relevant to the practice of out-of-hospital and in-hospital emergency medical care, disaster medicine, and public health and safety. PDM provides an international forum for the reporting and discussion of scientific studies, both quantitative and qualitative, that have relevance to the above practices. Its major objectives are: (1) the improvement of the types and quality of the care delivered to patients with perceived medical emergencies and to victims of multicasualty accidents or disasters, including the public health and safety aspects of such events; and (2) the prevention and/or mitigation of the occurrence of such events and of the effects of these events upon the human population and environment.
