

**Nutrition Research Reviews**, published annually by Cambridge University Press, presents authoritative and critical reviews of research that advance new concepts and encourage fresh thinking on a variety of nutritional problems. The journal's main objective is to encourage the exchange of fundamental ideas on nutritional well-being. The subscription (excluding VAT) to volume 9, 1996, is £50 including postage (US \$90 in USA, Canada and Mexico).

**The Proceedings of the Nutrition Society**, published by Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The meetings also include sessions at which papers are communicated by members and others on original work. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription (excluding VAT) to the *Proceedings* is £144.00 (US \$264.00 in USA, Canada and Mexico). Single issues are £53.00 (US \$98.00 in the USA, Canada and Mexico) each; postage extra.

**Copying.** This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$11.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/96 \$11.00+.10. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

*ISI Tear Sheet Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

*For all other use*, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Information of *The British Journal of Nutrition* and all other Cambridge journals is available on <http://www.cup.cam.ac.uk/> and in North America on <http://www.cup.org/>.

## CONTENTS

**Comparison of body-composition methods**

Measurement of body fat in young and elderly women: comparison between a four-compartment model and widely used reference methods. *Janneke A. Bergsma-Kadijk, Brigitte Baumeister & Paul Deurenberg* 649-657

**Basal metabolism in pregnant women**

Unexpected relationship between fat mass and basal metabolic rate in pregnant women. *Michele N. Bronstein, Rosa P. Mak & Janet C. King* 659-668

**Essential amino acid selection by the rat**

Rebalancing essential amino acids intake by self-selection in the rat. *Gilles Fromentin & Stylianos Nicolaidis* 669-682

**Tannins and amino acid digestibility**

The effect of cottonseed condensed tannins on the ileal digestibility of amino acids in casein and cottonseed kernel. *Feng Yu, P. J. Moughan & T. N. Barry* 683-698

**Microbial synthesis in sheep: <sup>15</sup>N v. purine excretion**

Determination of rumen microbial-nitrogen production in sheep: a comparison of urinary purine excretion with methods using <sup>15</sup>N and purine bases as markers of microbial-nitrogen entering the duodenum. *J. F. Perez, J. Balcells, J. A. Guada & C. Castrillo* 699-709

**Fat nutrition and autoimmunity**

Dietary fat influences la antigen expression, cytokines and prostaglandin E<sub>2</sub> production of immune cells in autoimmune-prone NZB × NZW F1 mice. *Bi-Fong Lin, Chao-Chi Huang, Bor-Luen Chiang & Su-Jen Jeng* 711-722

**Nature and metabolic effects of starchy foods**

Effects of long-term low-glycaemic index starchy food on plasma glucose and lipid concentrations and adipose tissue cellularity in normal and diabetic rats. *Muriel Lerer-Metzger, Salwa W. Rizkalla, Jing Luo, Martine Champ, Morvarid Kabir, Françoise Bruzzo, Francis Bornet & Gérard Slama* 723-732

**Resistant starch: measurement and properties**

Digestion and physiological properties of resistant starch in the human large bowel. *John H. Cummings, Emily R. Beatty, Susan M. Kingman, Sheila A. Bingham & Hans N. Englyst* 733-747

Measurement of resistant starch *in vitro* and *in vivo*. *Hans N. Englyst, Susan M. Kingman, Geoffrey J. Hudson & John H. Cummings* 749-755

**Fermentable carbohydrate and gut hormones**

Fermentable carbohydrate modulates postprandial enteroglucagon and gastrin release in rats. *J. M. Gee, W. Lee-Finglas & I. T. Johnson* 757-766

**Copper deficiency and lipoprotein fluidity**

Lipid fluidity of triacylglycerol-rich lipoproteins isolated from copper-deficient rats. *Claude Motta, Elyett Gueux, Andrzej Mazur & Yves Rayssiguier* 767-773

**Coprophagy and mineral absorption in rats**

Prevention of coprophagy modifies magnesium absorption in rats fed with fructo-oligosaccharides. *Atsutane Ohta, Seigo Baba, Masako Ohtsuki, Adusa Taguchi, Takashi Adachi & Hiroshi Hara* 775-784

**Detection of pre-clinical vitamin A deficiency**

Conjunctival impression cytology with transfer (CICT) to detect pre-clinical vitamin A deficiency among slum children in India. *Swapan Chowdhury, Rajesh Kumar, N. K. Ganguly, Lata Kumar, C. K. Nain & B. N. S. Walia* 785-790

**Announcements**

791-792
