MICROSCOPY TODAY

The objective of this publication, perhaps unlike many others, is simply to provide material of interest and value to working microscopists!

It is produced ten times each year and mailed to just under 9,000 microscopists in the U.S. (each of which who have specifically requested subscriptions)—and to several hundred microscopists outside the U.S.

Due to the financial support of advertisers, the publication is sent at no charge to microscopists in the U.S. However, due to the relatively few international readers (and the resulting lack of advertising income) and the very high postage costs, we must charge for international subscriptions:

Canada, Mexico, Latin and South America: \$40 for one year and \$70 for two years.

Other International: \$55 for one year and \$95 for two years.

Individuals requesting subscriptions, or wishing to change/correct their current address, may use the form to the left. This completed form may be mailed or faxed, or information sent by email, or the information may be provided via our www site.

We greatly appreciate article/material contributions from our readers—"users" as well as manufacturers/suppliers. The only criteria is that the subject matter be of interest to a reasonable number of working microscopists.
