British Society of Animal Science

Occasional Publications

The following Occasional Publications, published by the British Society of Animal Science, are now available from Nottingham University Press:

- No. 14 □ New Developments in Sheep Production (1990)
- No. 15 □ Neonatal Survival and Growth (1992)
- No. 16 □ Animal Production in Developing Countries (1993)
- No. 17 □ Safety and Quality of Feed from Animals (1993)
- No. 18 □ Livestock Production and Land Use in Hills and Uplands (1994)
- No. 19 □ Breeding and Feeding the High Genetic Merit Dairy Cow (1995)
- No. 20 □ Animal Choices (1997)
- No. 21 □ Food, Lands and Livelihoods - Setting Research Agendas for Animal
□ Science (1998)
- No. 22 □ *In Vitro* Techniques for Measuring Nutrient Supply to Ruminants (1998)
- No. 23 □ Farm Animal Welfare - Who Writes the Rules? (1999)
- No. 26 □ Fertility in High Producing Dairy Cows - 2 volumes (2001)

The following BSAS Publications have been published by Nottingham University Press:

- No. 29 □ Dairying: Using Science to Meet Consumers' Needs (2004)
- No. 30 □ Farm Animal Genetic Resources (2004)
- No. 31 □ The Appliance of Pig Science (2004)
- No. 32 □ Emerging Equine Science (2004)
- No. 33 □ Responding to the Livestock Revolution (2004)
- No. 34 □ Herbivores: Assessment of Intake, Digestibility and the Roles of Secondary
□ Compounds (2004)

CONTENTS

Preface	ix
Acknowledgements	xi
Introduction	xiii

Section 1: Science into practice

1.	Science and knowledge transfer – what the British pig industry needs	1
	Mike Sheldon <i>BPEX and Greenway Farms Limited, UK</i>	
2.	Theories, successes and lessons	3
	Mike Attenborough and Jayne Thompson <i>Meat and Livestock Commission, UK</i>	
3.	Funding and facilitation – Defra’s pig science and technology transfer programme	7
	David Garwes, Colette Backwell, Rachael Mills, Amanda Fox, Judith Stuart and Zoe Davies <i>Department for Environment, Food & Rural Affairs, UK</i>	

Section 2: Who matters? The changing market

4.	The multiple retailers	19
	Chris Brown <i>Meat Marketing Director, Asda, UK</i>	
5.	A direct marketeers view	23
	Jimmy Butler <i>Blythburgh Free Range Pork, UK</i>	
6.	A British point of view	27
	Andrew Saunders <i>Dalehead, UK</i>	

Section 3: A return to competitiveness

- | | | |
|-----|---|----|
| 7. | Where are the gaps?
Andrew Knowles
<i>British Pig Executive, UK</i> | 31 |
| 8. | Can genetics deliver?
John Webb
<i>Maple Leaf Foods Inc., Canada</i> | 39 |
| 9. | Regaining a high health status: Can it be done?
How can it be done?
David Chennells
<i>Acorn House Veterinary Surgery and PVS President, UK</i> | 49 |
| 10. | The American Dream: A quest for High Health
Timothy Loula
<i>Swine Vet Center, USA</i> | 55 |
| 11. | Light at the end of the tunnel
Iain Mortimer
<i>Elanco Animal Health, UK</i> | 63 |
| 12. | Precision pig management – resolving conflicts by
integrated solutions
Christopher Wathes & Paddy Schofield
<i>Silsoe Research Institute, UK</i> | 77 |
| 13. | The production of more fast-growing heavy pigs every year
Mike Varley
<i>Provimi Ltd, UK</i> | 85 |

Section 4: Dealing with the inevitable

- | | | |
|-----|---|-----|
| 14. | Emerging feed legislation and related issues
Keith Millar
<i>Food Standards Agency, UK</i> | 95 |
| 15. | Current developments in pig welfare
Sandra Edwards
<i>University of Newcastle-upon-Tyne, UK</i> | 101 |

Table of contents

16. Environmental sustainability - legislation, policy drivers and perks 117
Alan Brewer
Department for Environment, Food & Rural Affairs, UK
17. Salmonella and food safety – why it matters for the British pig industry 121
Derek Armstrong
Meat and Livestock Commission, UK

Section 5: Innovation and inspiration

18. Biotechnology – opportunities for Europe 135
Chris Warkup
Genesis Faraday Partnership, Roslin Institute, UK
19. Autofom – a new and improved technology for the UK pig industry 141
Mark Haighton
George Adams and Sons Ltd, UK

Section 6: Workshop and poster session

Workshop: Nutritional control of Salmonella

20. Effect of Formi within a Salmonella control programme for finisher pigs 149
Paul Blanchard¹, Karsten Kjeldsen², Ian Dennis³ and Alan Ford⁴
¹*Frank Wright Ltd, UK* ²*BASF Animal Nutrition, Germany*
³*Oakwood Veterinary Group, UK* ⁴*Farm Feeds Supplements, UK*

Posters

21. The effect of floor type on ammonia emission, welfare, health and behaviour of growing pigs 157
K Breuer, R M Kay, T G M Demmers & J E L Day
22. Longitudinal study of adverse behaviour of undocked pigs in two different housing systems 165
H A Van de Weerd, C M Docking, J E L Day, K Breuer & S A Edwards

Table of contents

23.	Non-invasive endocrine assessments in the domestic sow: towards an automated reproductive monitoring system for pig production	169
	A R Pickard, J M Vazquez, R M Pemberton, J P Hart & T T Mottram	
24.	The effect of feeding a high fibre diet from mid-lactation until breeding on subsequent litter size of sows	175
	E M Ferguson, C J Ashworth, M G Hunter, P Penny, J Slevin & S A Edwards	
25.	The effect of docosahexaenoic acid supplementation of the maternal diet on the performance and behaviour of piglets	181
	S A Edwards, C Bulman, K Breuer, N E O'Connell, I A Sneddon, M E M Sutcliffe, J T Mercer & K A Rance	
26.	Effect of neutraceutical supplementation on the growth performance and antioxidant activity in liver and plasma of weaned piglets	185
	J H Guy, S Arkle, D Mantle, C J Seal, P J Blanchard & P Toplis	
27.	Effect of Formi [®] , feed structure and feed processing on the gut health of pigs	193
	K Kjeldsen, M Øverland & P J Blanchard	
	Index	199
