

CORRIGENDUM**APPROACHES TO DETERMINE RESERVOIR EFFECTS IN ELK/MOOSE – CORRIGENDUM**Bente Philippsen doi: [10.1017/RDC.2019.124](https://doi.org/10.1017/RDC.2019.124), published by Cambridge University Press, 15 October 2019

In the original publication of this article, the position of sample sites Beregovaya 1 and 2 was misrepresented in Figure 1. A corrected version of the figure is below:

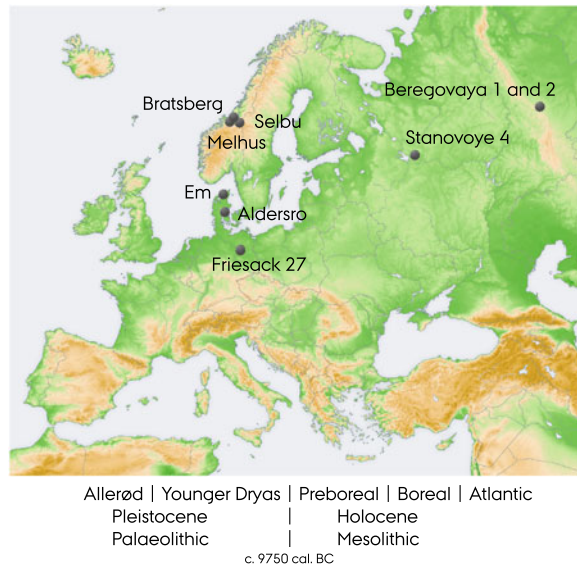

Figure 1 Map indicating the locations from where the samples originate. Background map: in the public domain, created by <https://commons.wikimedia.org> user San Jose. The insert shows the order of the environmental, climatic, and cultural phases mentioned in the text (based on the nomenclature commonly used in Denmark).

Additionally, the name of the second author of one cited reference was misspelled. The correct reference is as follows:

Zhulnikov AM, Kashina EA. 2010. “Staffs with elk heads” in the culture of the ancient population of the Eastern Urals, Northern and Eastern Europe. *Archaeology, Ethnology and Anthropology of Eurasia* 38(2):71–78.

The author apologizes for these errors.
