JOURNAL OF SEMITIC STUDIES

edited by

H. H. ROWLEY, Professor of Hebrew Language and Literature
in the University of Manchester,

and

P. R. WEIS, Nathan Laski Senior Lecturer in
Post-Biblical Jewish Studies, Manchester,

published with the support of the
ISAAC WOLFSON FOUNDATION

The *Journal of Semitic Studies* has now successfully completed its first year. It has been well received throughout the world both for the scholarship of its articles and for the important book review section.

The field of study is a broad one, and the Journal includes articles of linguistic, literary, historical, archaeological, and cultural interest. Jewish studies are especially represented, covering the whole period of Israel's history, save that current affairs are not included. Arabic and Accadian studies have their place also.

Common Ground said of Volume I, Number 1: "This is a literary venture of the highest importance and, moreover, something in the nature of an innovation. For in this Journal Hebrew and Old Testament literature will be treated in the wider context of *Studia Semitica* which include Arabic and Accadian. Outstanding scholars have written articles for the early issues and, if we may judge from the standard of the present one, the Journal is assured of a warm welcome from a discerning section of the reading public. Even for the comparative layman there is much which is not only instructive but stimulating."

MUHAMMAD AT MEDINA

The Rev. W. MONTGOMERY WATT

“ . . . the critical decade after the Flight from Mecca to Medina (the Hijrah, 622 A.D.) is so important in the history of Islam as to be fully worthy of the careful study, elaborate documentation and sympathetic presentation given to it in this book.”—

THE STRUCTURE OF THE OTTOMAN DYNASTY

A. D. ALDERSON

“ The author of this book says it is a work of synthesis in which there is little that is strictly original. It is a synthesis of the best kind, bringing together the results of highly specialized research on the different aspects of a fascinating subject and presenting them so briefly and so lucidly that they cannot fail to interest, not only students in many different fields, but the general reader as well.”—THE LISTENER.

THE UNION OF BURMA

A Study of the First Years of Independence

HUGH TINKER

Modern Burma, of which this is the first comprehensive study since independence, has many lessons to offer to the outside world. It is one of the few Asian countries which has begun to develop a dynamic alternative to Communism based upon “ Welfare ” Socialism and the spiritual inspiration of Buddhism. Most of the material now presented has not appeared previously in print, and has not been available to the public, even in Burma.
