WEED TECHNOLOGY

Published six times a year by the Weed Science Society of America

Jason K. Norsworthy, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Technology* include all aspects of weed management in agricultural, horticultural, ornamental, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; weed resistance to herbicides; herbicide resistant crops; biological weed control agents; new weed management techniques; impacts of weed competition with crops; vegetation management with plant growth regulators; weed surveys; weed-related grower surveys; education; and extension. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Jason Bond, *Stoneville, MS* (2010)

Kevin Bradley, *Columbia, MO* (2012)

Barry Brecke, *Jay, FL* (2013)

Peter Dittmar, *Gainesville, FL* (2016)

Steve Fennimore, *Salinas, CA* (2004)

Aaron Hager, *Urbana, IL* (2012)

Brad Hanson, *Davis, CA* (2013)

Prashant Jha, *Ames, IA* (2016)

Amit Jhala, *Lincoln, NE* (2018)

David Johnson, *Des Moines, IA* (2019)

William Johnson, *West Lafayette, IN* (2007)

Andrew Kniss, *Laramie, WY* (2016)

Drew Lyon, *Pullman, WA* (2018)

Patrick McCullough, *Griffin, GA* (2016)

Scott McElroy, *Auburn, AL* (2012)

Robert Nurse, *Guelph, ON* (2016)

Darren Robinson, *Ridgetown, ON* (2008)

Larry Steckel, *Jackson, TN* (2007)

Daniel Stephenson, *Alexandria, LA* (2013)

Mark VanGessel, *Georgetown, DE* (2013)

Michael Walsh, *Crawley, Australia* (2016)

Eric Webster, *Baton Rouge, LA* (2018)

Cammy Willett, *Fayetteville, AR* (2017)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Technology (ISSN 0890-037X) is published by the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234. It is published bimonthly, one volume per year, six issues per year beginning in February.

Membership includes online access to *Weed Technology*, *Weed Science*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Technology* subscription page at <https://www.cambridge.org/core/journals/weed-technology/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Technology publishes six times a year in February, April, June, August, October, and December. Annual institutional electronic subscription rates: US \$388.00; UK £270.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/wt>). Authors are asked to pay \$85 for the first page and \$65 per page thereafter as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Technology* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique propagative materials they might possess with other workers in that area who request such materials for the purpose of scientific research.

Coastal rangeland prairie near Refugio, TX illustrating before (1965) and after (2014) huisache encroachment into the region. See article in this issue entitled, “Treatment life and economic comparisons of honey mesquite (*Prosopis glandulosa*) and huisache (*Vachellia farnesiana*) herbicide programs in rangeland.” Photo credit Wayne Hanselka and Garlan Hoffman.

WEED TECHNOLOGY

VOLUME 33

NOVEMBER–DECEMBER 2019

NUMBER 6

• RESEARCH ARTICLES

- Treatment life and economic comparisons of honey mesquite (*Prosopis glandulosa*) and huisache (*Vachellia farnesiana*) herbicide programs in rangeland
Case R. Medlin, W. Allan McGinty, C. Wayne Hanselka, Robert K. Lyons, Megan K. Clayton and William J. Thompson 763
- Factors influencing broadcast-herbicide control of huisache (*Vachellia farnesiana*)
Megan K. Clayton and Robert K. Lyons 773
- Quizalofop interactions when mixed with clomazone and pendimethalin in acetyl coenzyme A carboxylase-inhibiting herbicide-resistant rice
Matthew J. Osterholt, Eric P. Webster, David C. Blouin and Benjamin M. McKnight 778
- Preemergence herbicide delays the critical time of weed removal in popcorn
Ethann R. Barnes, Stevan Z. Knezevic, Nevin C. Lawrence, Suat Irmak, Oscar Rodriguez and Amit J. Jhala 785
- Cereal rye cover crop and herbicide application method affect cotton stand, Palmer amaranth (*Amaranthus palmeri*) control, and cotton yield
Lavesta C. Hand, Robert L. Nichols, Theodore M. Webster and A. Stanley Culpepper 794
- Determining the critical period for weed control in high-yielding cotton using common sunflower as a mimic weed
Graham W. Charles, Brian M. Sindel, Annette L. Cowie and Oliver G. G. Knox 800
- Scouringrush (*Equisetum* spp.) control in dryland winter wheat
Blake D. Kerbs, Andrew G. Hulting and Drew J. Lyon 808
- Evaluation of auxin tolerance in selected tomato germplasm under greenhouse and field conditions
Rouzbeh Zangouejinejad, Mohammad Taghi Alebrahim and Te Ming Tseng 815
- Fate of weed seeds in spent mushroom compost following commercial mushroom production
Kurt M. Vollmer and Mark J. VanGessel 823
- Measurement of foliar spray retention on creeping bentgrass
Pingyuan Zhang and Bruce E. Branham 827
- Emergence timing affects growth and reproduction of goosegrass (*Eleusine indica*)
Xiaoyan Ma, Yajie Ma, Hanwen Wu, Xiangliang Ren, Weili Jiang and Yan Ma 833
- Evaluation of herbicides for hair fescue (*Festuca filiformis*) management and potential seedbank reduction in lowbush blueberry
Scott N. White 840
- Group characteristics of tea growers relative to weed management: a case study in southwestern China
Guoqi Chen, Bin Zhang, Qiong Wu, Linhong Jin, Zhuo Chen and Xiaofeng Tan 847
- Sweetpotato tolerance to saflufenacil and rimsulfuron/thifensulfuron-methyl applied pretransplanting
Stephen L. Meyers, Mark W. Shankle and Trevor F. Garrett 855
- Integrated management of glyphosate-resistant horseweed (*Erigeron canadensis*) with tillage and herbicides in soybean
Parminder S. Chahal and Amit J. Jhala 859
