WEED SCIENCE

Published six times a year by the Weed Science Society of America

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Muthukumar V Bagavathiannan, Texas A&M, College Station, TX 77843 (2015)

Ian Burke, Washington State University, Pullman, WA 99164 (2019)

Carlene Chase, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

Bhagirath Singh Chauhan, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

Sharon Clay, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

Franck E. Dayan, USDA-ARS-NPURL, National Center for Natural Products Research, University, MS 38677 (2003)

Timothy Grey, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

Erin Haramoto, University of Kentucky, Lexington, KY 40506 (2020)

Prashant Jha, Iowa State University, Ames, IA 50011 (2017)

Mithila Jugulam, Kansas State University, Manhattan, KS 66506 (2019)

Vipan Kumar, Kansas State University, Hays, KS 67601 (2020)

Ramon Leon, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)

Sara Martin, Ag Canada, Ottawa, Canada (2018)

Vijay Nandula, Mississippi State University, Delta Research & Extension Center, Stoneville, MS 38776 (2008)

Chris Preston, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

Dean Riechers, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

Hilary Sandler, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)

Debalin Sarangi, University of Wyoming, Powell, WY 82435 (2020)

Steven Seefeldt, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

Patrick J. Tranel, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

Te-Ming Paul Tseng, Mississippi State University, Mississippi State, MS 39762 (2019)

Martin M. Williams II, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

Chenxi Wu, Crop Science Division, Plant Biotechnology – Research & Development, Bayer U.S., Chesterfield, MO 63017 (2019)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Science (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Science publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$430.00; UK £299.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

WEED SCIENCE

Journal of the Weed Science Society of America

Volume 68 Number 5 September 2020

MY VIEW

- A unifying approach for IWM. *Stephen L. Young*..... 435

RESEARCH ARTICLES

- Arg-128-Leu target-site mutation in *PPO2* evolves in wild poinsettia (*Euphorbia heterophylla*) with cross-resistance to PPO-inhibiting herbicides. *Rafael R. Mendes, Hudson K. Takano, Fernando S. Adegas, Rubem S. Oliveira Jr, Todd A. Gaines and Franck E. Dayan*..... 437
- Vernalization affects absorption and translocation of clopyralid and aminopyralid in rush skeletonweed (*Chondrilla juncea*). *Tara L. Burke and Ian C. Burke*..... 445
- Flufenacet activity is affected by GST inhibitors in blackgrass (*Alopecurus myosuroides*) populations with reduced flufenacet sensitivity and higher expression levels of GSTs. *Rebecka Dücker, Evlampia Parcharidou and Roland Beffa*..... 451
- Gene expression and target-site mutations are associated with resistance to ALS inhibitors in annual sedge (*Cyperus compressus*) biotypes from Georgia. *Jialin Yu, Patrick E. McCullough, J. Scott McElroy, David Jespersen and Donn G. Shilling*..... 460
- Soybean density and Palmer amaranth (*Amaranthus palmeri*) establishment time: effects on weed biology, crop yield, and economic returns. *Nicholas E. Korres, Jason K. Norsworthy, Andy Mauromoustakos and Martin M. Williams II*..... 467
- No-tillage altered weed species dynamics in a long-term (36-year) grain sorghum experiment in southeast Texas. *Prabhu Govindasamy, Debalin Sarangi, Tony Provin, Frank Hons and Muthukumar Bagavathiannan*..... 476
- Phenotypic diversity of weedy rice (*Oryza sativa f. spontanea*) biotypes found in California and implications for management. *Elizabeth Karn, Teresa De Leon, Luis Espino, Kassim Al-Khatib and Whitney Brim-DeForest*..... 485
- Fertilizer placement effects on eclipta (*Eclipta prostrata*) growth and competition with container-grown ornamentals. *Yuvraj Khamare, S. Christopher Marble and Annette Chandler*..... 496
- Germination and emergence of common beggar's-tick (*Bidens alba*) seeds at two different stages of afterripening as affected by environmental factors. *Jialin Yu, Shaun M. Sharpe and Nathan S. Boyd*..... 503
- Common ragweed (*Ambrosia artemisiifolia*) seed shattering in wheat, corn, and soybean. *Marie-Josée Simard, Robert E. Nurse, Eric R. Page and Gaétan Bourgeois*..... 510
- Scotch broom (*Cytisus scoparius*) germination and growth responses to light: implications for logging debris retention after forest harvesting. *Timothy B. Harrington*..... 517
- The effects of integrating a cereal rye cover crop with herbicides on glyphosate-resistant horseweed (*Conyza canadensis*) in no-till soybean. *Alyssa I. Essman, Mark M. Loux, Alexander J. Lindsey, Anthony F. Dobbels and Emilie E. Regnier*..... 527
- Alternative performance targets for integrating cover crops as a proactive herbicide-resistance management tool. *Jess M. Buncek, John M. Wallace, William S. Curran, David A. Mortensen, Mark J. VanGessel and Barbara A. Scott*..... 534
- Detection of grassy weeds in bermudagrass with deep convolutional neural networks. *Jialin Yu, Arnold W. Schumann, Shaun M. Sharpe, Xuehan Li and Nathan S. Boyd*..... 545

CORRIGENDUM

- Crop Biomass Not Species Richness Drives Weed Suppression in Warm-Season Annual Grass–Legume Intercrops in the Northeast – CORRIGENDUM. *K. Ann Bybee-Finley, Steven B. Mirsky and Matthew R. Ryan*..... 553
