

CONTENTS

Breeding and genetics

- Cañón, J., García, D., Delgado, J. V., Dunner, S., Telo da Gama, L., Landi, V., Martín-Burriel, I., Martínez, A., Penedo, C., Rodellar, C., Zaragoza, P. and Ginja, C.
Relative breed contributions to neutral genetic diversity of a comprehensive representation of Iberian native cattle 1323

- Clempson, A. M., Pollott, G. E., Brickell, J. S., Bourne, N. E., Munce, N. and Wathes, D. C.
Polymorphisms in the autosomal genes for mitochondrial function *TFAM* and *UCP2* are associated with performance and longevity in dairy cows 1335

Nutrition

- Boddicker, N., Gabler, N. K., Spurlock, M. E., Nettleton, D. and Dekkers, J. C. M.
Effects of *ad libitum* and restricted feeding on early production performance and body composition of Yorkshire pigs selected for reduced residual feed intake 1344

- Trevisi, P., Casini, L., Coloretto, F., Mazzoni, M., Meriardi, G. and Bosi, P.
Dietary addition of *Lactobacillus rhamnosus* GG impairs the health of *Escherichia coli* F4-challenged piglets 1354

- Mapiye, C., Chimonyo, M., Marufu, M. C. and Muchenje, V.
Stress reactivity and its relationship to beef quality in Nguni steers supplemented with *Acacia karroo* leaves 1361

- Alemu, A. W. and Doepel, L.
Fenugreek (*Trigonella foenum-graecum* L.) as an alternative forage for dairy cows 1370

Physiology and functional biology of systems

- Nissen, P. M. and Oksebjerg, N.
Birth weight and postnatal dietary protein level affect performance, muscle metabolism and meat quality in pigs 1382

- Aguinaga, M. A., Gómez-Carballar, F., Nieto, R. and Aguilera, J. F.
Production and composition of Iberian sow's milk and use of milk nutrients by the suckling Iberian piglet 1390

- Tichovská, H., Petr, J., Chmelíková, E., Sedmíková, M., Tůmová, L., Krejčová, M., Dörflerová, A. and Rajmon, R.
Nitric oxide and meiotic competence of porcine oocytes 1398

- McDowall, M. L., Edwards, N. M. and Hynd, P. I.
The effects of short-term manipulation of thyroid hormone status coinciding with primary wool follicle development on fleece characteristics in Merino sheep 1406

- Zarazaga, L. A., Gatica, M. C., Celi, I., Guzmán, J. L. and Malpoux, B.
Artificial long days in addition to exogenous melatonin and daily contact with bucks stimulate the ovarian and oestrous activity in Mediterranean goat females 1414

- Schneider, A., Pfeifer, L. F. M., da Silva Neto, J. W., Hax, L. T., Antunes, M. M., Del Pino, F. A. B., Paludo, G. R. and Corrêa, M. N.
Effect of exogenous insulin and fasting on growth hormone receptor and IGF-I expression in the pre-ovulatory follicle of ewes 1420

Behaviour, welfare and health

- Sommavilla, R., Hötzel, M. J. and Dalla Costa, O. A.
Piglets' weaning behavioural response is influenced by quality of human-animal interactions during suckling 1426

Farming systems and environment

- Dawson, L. E. R., O'Kiely, P., Moloney, A. P., Vipond, J. E., Wylie, A. R. G., Carson, A. F. and Hyslop, J.
Grassland systems of red meat production: integration between biodiversity, plant nutrient utilisation, greenhouse gas emissions and meat nutritional quality 1432

- Nozières, M. O., Moulin, C. H. and Dedieu, B.
The herd, a source of flexibility for livestock farming systems faced with uncertainties? 1442

- Boogaard, B. K., Oosting, S. J., Bock, B. B. and Wiskerke, J. S. C.
The sociocultural sustainability of livestock farming: an inquiry into social perceptions of dairy farming 1458

- Celaya, R., Ferreira, L. M. M., García, U., Rosa García, R. and Osoro, K.
Diet selection and performance of cattle and horses grazing in heathlands 1467

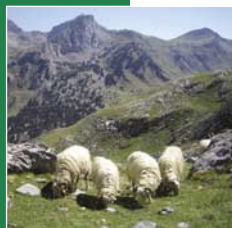

- Henriksson, M., Flysjö, A., Cederberg, C. and Swensson, C.
Variation in carbon footprint of milk due to management differences between Swedish dairy farms 1474

Product quality, human health and well-being

- Jiang, Y. Z., Zhu, L., Li, X. W. and Si, T.
Evaluation of the Chinese indigenous pig breed Dahe and crossbred Dawu for growth and carcass characteristics, organ weight, meat quality and intramuscular fatty acid and amino acid composition 1485

- Notice 1493

- Addendum 1494

Go Mobile

CJO Mobile (CJOm) is a streamlined
Cambridge Journals Online (CJO)
for smartphones and other
small mobile devices

- Use CJOm to access all journal content including *FirstView* articles which are published online ahead of print
- Access quickly and easily thanks to simplified design and low resolution images
- Register for content alerts or save searches and articles – they will be available on both CJO and CJOm
- Your device will be detected and automatically directed to CJOm via: journals.cambridge.org

World's Poultry Science Journal

Published on behalf of
The World's Poultry Science Association

Editor

Lucy Waldron, *LWT Animal Nutrition Ltd, New Zealand*

World's Poultry Science Journal provides authoritative reviews in poultry science and an international forum for the exchange and dissemination of information including research, education and industry organisation. Each issue includes poultry industry-related news, regional reports on global developments in poultry, reports from specialist scientific working groups, book reviews, association news and a calendar of forthcoming events.

Coverage includes breeding, nutrition, welfare, husbandry, production systems, processing, product development, physiology, egg and meat quality, industry structure, economics and education.

The journal is of interest to academics, researchers, students, extension workers and commercial poultry producers.
