

[Continued from p. iv of wrapper]

The effect of dilution rate upon fermentation in the rumen. By D. G. HARRISON, D. E. BEEVER and D. J. THOMSON	43A
The effect of ruminal or post-ruminal digestion of lactose or fat on the voluntary intake and digestibility of dried grass by lambs. By PENELOPE C. BAILEY and E. R. ØRSKOV	45A
Utilization of dietary ammonium polyphosphate by growing wether lambs. By G. FISHWICK	46A
Plasma lipoproteins of the suckling lamb compared with adult sheep. By F. O. T. KUBASEK, W. M. F. LEAT and N. BUTTRESS	47A
Linolenic acid deprivation in mice. By J. P. W. RIVERS and B. C. DAVIDSON	48A
Linolenic acid deprivation in Capuchin monkeys. By A. J. SINCLAIR, R. N. T.-W. FIENNES, A. W. M. HAY, G. WATSON, M. A. CRAWFORD and M. G. HART	49A
Lipid composition of human milk: comparative studies on African and European mothers. By M. A. CRAWFORD, PAMELA STEVENS, P. MSUYA and A. MUNHAMBO	50A
Effect of glycerol on the incorporation of fructose and glucose into hepatic triglyceride of rats. By M. WUSTEMAN and I. MACDONALD	51A
The effect of a high-carbohydrate diet on skin lipogenesis in the rat. By T. REBELLO and I. MACDONALD	52A
<i>Two Hundred and Sixty-fourth Scientific Meeting Middlesex Hospital Medical School, Cleveland Street, London W1P 7PN 15 MARCH 1974</i>	
Studies on the growth and composition of rats during realimentation on a restricted intake regime. By A. M. STEWART	54A
Developmental changes in muscle protein metabolism in congenitally malnourished rats. By D. J. MILLWARD, D. O. NNANYELUGO and P. J. GARLICK	55A
Protein and amino acid requirements of the growing meat rabbit. By D. SPREADBURY	56A
Effects of age and diet on the secretion of insulin and growth hormone in rabbits. By M. R. TURNER, K. A. ALLEN and K. A. MUNDAY	56A
Effects of varying the dietary protein source on reproduction in rats. By M. R. TURNER and K. A. MUNDAY	57A
The effect of protein supplementation in early pregnancy on the growth of the rat foetus and placenta. By D. J. NAISMITH and B. L. G. MORGAN	58A
The influence of the composition of the diet on the digestion of organic matter and nitrogen in sheep receiving diets containing hay, barley and flaked maize. By D. G. CHAMBERLAIN and P. C. THOMAS	59A
Fat mobilization in Large White pigs. By J. D. WOOD	61A
The effects of free and protected coconut oil on intake of food by cows. By J. A. BINES and J. E. STORRY	61A
Synthesis of milk fat from acetate and 3-hydroxybutyrate in goats. By D. S. PARKER and G. H. SMITH	62A
A re-assessment of the status of <i>myo</i> -inositol as a vitamin. By N. D. SHEPHERD and T. G. TAYLOR	63A
The lipotropic action of <i>myo</i> -inositol. By N. D. SHEPHERD and T. G. TAYLOR	64A
Effect of lignosulphonate on the colon of guinea-pigs. By J. WATT and R. MARCUS	65A
The induction of testicular cysts in the chick by various dietary salts. By W. A. DEWAR, W. G. SILLER and C. C. WHITEHEAD	66A

Proceedings of the Nutrition Society

CONTENTS OF VOL. 33, No. 2, SEPTEMBER 1974

SYMPOSIUM PROCEEDINGS

Two Hundred and Sixty-second Scientific Meeting

Joint Meeting with the Neonatal Society

The Royal Society of Medicine, Wimpole Street, London W1M 8AE

6 DECEMBER 1973

FEEDING THE NEWBORN: COMPARATIVE PROBLEMS IN ANIMALS AND MAN*

Chairman: PROFESSOR R. A. McCANCE, CBE, PhD, MD, FRCP, FRS, *Sidney Sussex College, Cambridge*

	PAGE
Critical factors in the nutrition and management of neonatal pigs. By A. S. JONES. Paper for publication not received.	
Problems in the nutrition of the preruminant calf. By J. H. B. ROY	79
Some observations on growth and development of <i>Macaca mulatta</i> . By R. HEYWOOD	87
The feeding of young anthropoid apes. By BERYL D. CORNER	93
<i>Chairman: Dr D. M. T. GAIRDNER, DM, FRCP, Addenbrooke's Hospital, Cambridge CB2 2QQ</i>	
Feeding the newborn: comparative problems in man and animals. By ELSIE M. WIDDOWSON	97
Malnutrition in very low birth-weight, pre-term infants. By J. C. L. SHAW	103
<i>Chairman: Dr ELSIE M. WIDDOWSON, DSc, Department of Investigative Medicine, Downing St. Cambridge</i>	
Overfeeding in infancy. By L. S. TAITZ	113
The effect of diet on the development of the adipose organ. By DOUGLAS GAIRDNER and JOY DAUNCEY	119

Two Hundred and Sixty-fifth Scientific Meeting

One Hundred and Fifth Scottish Meeting

School of Agriculture, University of Aberdeen, King Street, Aberdeen

21 MARCH 1974

ADVANCES IN TECHNIQUES RELATING TO RUMINANT NUTRITION

Chairman: PROFESSOR D. G. ARMSTRONG, *Department of Agricultural Biochemistry, University of Newcastle*

Chairman's opening remarks. By D. G. ARMSTRONG	121
Continuous in vitro rumen systems. By J. M. EWART	125
X-ray image intensification in ruminant physiology. By G. WENHAM	135
Automatic sampling of digesta. By D. A. CORSE	141
The use of intestinal markers to measure digestive function in ruminants. By J. C. MACRAE	147
Clearance by the hepatic portal circulation of the products of digestion and metabolism in the ruminant gut. By A. J. F. WEBSTER	155
Measurement of energy expenditure in the grazing ruminant. By F. G. WHITELAW	163
The use of radio-telemetry in the study of animal physiology. By J. BLIGH and J. W. HEAT	173
Radioimmunoassays and ruminant endocrinology. By A. M. SYMONS	183

ABSTRACTS OF COMMUNICATIONS

Two Hundred and Sixty-third Scientific Meeting

Guy's Hospital Medical School, St Thomas Street, London SE1 9RT

7 DECEMBER 1973

Effect of feeding with sucrose and other carbohydrates on platelet function in rats. By LILIAN MCGREGOR	23A
Dental plaque formation in relation to type of carbohydrate. By T. H. GRENBY and G. EIKREM	24A
The differing response shown by male and female rats given low-protein-high-carbohydrate diets. By D. B. JEFFERYS and I. R. WHITE	25A
The influence of fat in the meal on oral glucose tolerance. By A. R. MACRAE and I. MACDONALD	26A
The influence of feeding pattern on rat growth and development. By R. C. POCKNSE and F. W. HEATON	27A
The effects of caffeine and carnitine on the oxygen consumption of fed and fasted subjects. By D. S. MILLER, M. J. STOCK and JEAN A. STUART	28A
Dental splinting in the treatment of hyperphagic obesity. By J. S. GARROW	29A
Changes in body size relative to age and to childbearing in Papua New Guinea women: a comparison of Highlands women and coastal women. By HEATHER GREENFIELD, JANE CLARK and IAN RING	30A
The measurement of portal and hepatic blood flow in pigs. By D. M. ANDERSON	30A
Measurement of portal blood flow in the pig by the continuous thermal dilution technique. By F. WHITE, A. J. F. WEBSTER, D. J. FARRELL and A. S. JONES	31A
Blood flow and free amino nitrogen (FAN) concentration in the portal vein of the pig. By D. J. FARRELL, A. S. JONES, A. J. F. WEBSTER and F. WHITE	32A
Factors affecting free amino acid and urea nitrogen concentrations in the blood plasma of ruminating calves. By A. P. WILLIAMS and R. H. SMITH	34A
The amino acid requirements of the ruminating calf. By A. P. WILLIAMS and R. H. SMITH	35A
On the new interpretation of recommended intake for protein. By P. V. SUKHATME	36A
A simple technique for the estimation of tissue protein turnover in man. By D. HALLIDAY, J. S. GARROW and P. A. RODGERS	37A
Insulin and growth hormone secretion in the newborn offspring of rabbits fed from mating on high-protein or low-protein diets. By M. R. TURNER, K. A. ALLEN and K. A. MUNDAY	38A
The effect of casein and amino acids on glucose synthesis in sheep. By D. B. LINDSAY and CAROLINE DYKE	39A
Preliminary studies on the suitability of field bean (<i>Vicia faba</i> L.) protein isolate for lambs and calves. By I. F. DUTHIE, D. G. EDWARDS, B. ROGERS, R. J. ANDREWS and J. A. WRIGHT	40A
Contribution of microbial nitrogen to duodenal digesta in the ruminant. By A. B. McALLAN and R. H. SMITH	41A
Digestibility of ¹⁴ N-labelled proteins in the small intestine of the ruminating calf. By D. N. SALTER and R. H. SMITH	42A
