

INTERNATIONAL AFRICAN BIBLIOGRAPHY OF CURRENT PUBLICATIONS ON AFRICA

FROM January 1971 the quarterly Bibliography of Current Publications will be issued as a separate publication.

This has become necessary on account of the rapid and continuing increase in the number of titles, which have now risen to an annual total of about 3,000, and the greatly increased costs involved in the compilation and printing. It is also believed that separate publication will be more convenient to most scholars and librarians.

Members of the Institute and subscribers to *Africa* are asked to ensure by their support the success of this new form of publication.

The annual subscription is £2.50; US \$6.40; FF 34.00. A leaflet giving further details will be supplied on request to the Secretary.
