

## International Psychogeriatric Association (IPA)

Representing more than 66 countries around the world, IPA is a unique and diverse professional healthcare community promoting better geriatric mental health — across disciplines, across borders, and across geriatric issues. Psychiatrists, Scientists, Neurologists, Geriatricians, Primary Care Physicians, Epidemiologists, Nurses, Psychologists, Occupational Therapists, Social Workers, and many other healthcare professionals come to the IPA community from all over the globe to discuss, learn, share, and research information about behavioral and biological aspects of geriatric mental health. IPA's leaders and members contribute their wealth of expertise and knowledge from the research, clinical, education, service and program development arenas.

There are many benefits to being a member of IPA, including a subscription to this peer-reviewed journal, *International Psychogeriatrics*. For more information please contact [info@ipa-online.org](mailto:info@ipa-online.org).

# IPA Bulletin Is Now Electronic!

## A New Day: *IPA Bulletin*

We are excited to announce that the *IPA Bulletin* is fully entering the electronic age. Starting this year, we are sending the *Bulletin* to all of our members in an electronic format. Besides being more environmentally friendly, members receive more timely information and in a manner so you can access it at *any time* and *any place*... that is when and where you want to. Here are just a few of the benefits the new format will offer IPA members:

More timely information – No more long print production cycles and post delays – electronic format means faster production and delivery to you

Links to other sources – Electronic format enables us to take you directly to other valuable information

More updates – Instead of the current printed copy of 4 issues per year, it is 6 times per year

Easier to read – Do you have a smart phone or similar device? The *IPA Bulletin* will be right in the palm of your hand whenever you want to take a moment and catch up on news and developments in the field or with the Association

Searchable – Now all archived and future issues will be searchable on the IPA website in the Members Area

**However, IPA members need to make sure you can receive it by adding the email address “[info@ipa-online.org](mailto:info@ipa-online.org)” to your ONLINE address book.**

If your email is part of an internal network (i.e., at work, school, etc.) please ask your system administrator to add this email address to the network "White List"

Please take a look at the new issue... tell us what you think.

We want to hear from you... as well as any news or articles you can share with us.

*IPA Bulletin ... your global connection to the field!*

## ***IPA Complete Guide to Behavioral and Psychological Symptoms of Dementia (BPSD)***

*The only resource you need for all members of your team!*

### **An IPA Members Benefit\***

**\*IPA members have access online at no additional charge!**

The *IPA Complete Guide to Behavioral and Psychological Symptoms of Dementia (BPSD)* was revised in 2010, based on the BPSD Educational Pack. This comprehensive resource has modules that provide a useful overview of the presentation and causes of BPSD, offering constructive guidance on treatment interventions.

BPSD are recognizable, understandable and treatable. The recognition and appropriate management of BPSD are important factors in improving our care of dementia patients and their caregivers.

These modules will provide a useful overview of the presentation and causes of BPSD offering:

- Module 1 An introduction to BPSD
- Module 2 Clinical issues
- Module 3 Etiology
- Module 4 Role of family caregivers
- Module 5 Non-pharmacological treatments
- Module 6 Pharmacological management
- Module 7 Cross-cultural and transnational considerations

*Currently in revision – release 2012*

## Scope and contributions

*International Psychogeriatrics* is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.478 (2010). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites ([journals.cambridge.org/ipg](http://journals.cambridge.org/ipg) and [www.ipa-online.org](http://www.ipa-online.org)).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website [journals.cambridge.org/ipg](http://journals.cambridge.org/ipg). Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

**Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.**
