

J. & A. CHURCHILL

"Yorke and Maplestone's book is actually a boiled-down library and museum combined...contains clear and carefully worked out keys to all the superfamilies, families, and genera of parasitic nematodes, the best available description of the genera, the name and synonyms of the type species....Of inestimable value are the drawings which illustrate the essential characteristics of each genus."

PARASITOLOGY is published about four times a year. The numbers afterwards are issued in volumes each containing four numbers.

Papers for publication should be sent to Professor GEORGE H. F. NUTTALL, F.R.S., Longfield, Madingley Road, Cambridge. Other communications should be addressed to the University Press, Cambridge.

Papers forwarded to the Editors for publication are understood to be offered to *PARASITOLOGY* alone, unless the contrary is stated.

Contributors receive twenty-five copies of their papers free. Additional copies, not exceeding one hundred (except in special cases), may be had at cost price: these should be ordered when the final proof is returned.

The subscription price is £2. 5s. per volume (post-free), payable in advance single numbers 15s. net (double number 30s. net). Subscriptions may be sent to any Bookseller, or to The Cambridge University Press, Fetter Lane, London, E.C. 4.

The Cambridge University Press has appointed the University of Chicago Press agent for the sale of *Parasitology* in the United States of America and has authorised the following prices: Subscription \$10.75 net per volume; single numbers \$3.75 net each, double numbers \$7.50 net each.
