Editorial Announcement: Letters to the Editor	1473
Letter to the Editor on the surgical castration of piglets	1474
Response to the Letter to the Editor on the surgical castration of piglets	1476
EAAP Annual Meeting, 2008. Session 'Piglet Castration'	
<i>Edwards, S. A., von Borell, E. and Bonneau, M.</i>	
Guest editorial: Scientific and practical issues associated with piglet castration	1478
<i>Fredriksen, B., Font i Furnols, M., Lundström, K., Migdal, W., Prunier, A., Tuytens, F. A. M. and Bonneau, M.</i>	
Practice on castration of piglets in Europe	1480
<i>von Borell, E., Baumgartner, J., Giersing, M., Jäggin, N., Prunier, A., Tuytens, F. A. M. and Edwards, S. A.</i>	
Animal welfare implications of surgical castration and its alternatives in pigs	1488
<i>Lundström, K., Matthews, K. R. and Haugen, J.-E.</i>	
Pig meat quality from entire males	1497
<i>Zamaratskaia, G. and Squires, E. J.</i>	
Biochemical, nutritional and genetic effects on boar taint in entire male pigs	1508
<i>de Roest, K., Montanari, C., Fowler, T. and Baltussen, W.</i>	
Resource efficiency and economic implications of alternatives to surgical castration without anaesthesia	1522
Breeding and genetics	
<i>Rius-Vilarrasa, E., Roehe, R., Macfarlane, J. M., Lambe, N. R., Matthews, K. R., Haresign, W., Matika, O. and Bünger, L.</i>	
Effects of a quantitative trait locus for increased muscularity on carcass traits measured by subjective conformation and fat class scores and video image analysis in crossbred lambs	1532
<i>D'Eath, R. B., Roehe, R., Turner, S. P., Ison, S. H., Farish, M., Jack, M. C. and Lawrence, A. B.</i>	
Genetics of animal temperament: aggressive behaviour at mixing is genetically associated with the response to handling in pigs	1544
Nutrition	
<i>Rooke, J. A., Matheson, S., Ison, S., Jack, M., Ashworth C. J. and Dwyer, C. M.</i>	
The effect of late pregnancy supplementation of ewes with vitamin E on lamb vigour	1555
<i>Yang, S. L., Bu, D. P., Wang, J. Q., Hu, Z. Y., Li, D., Wei, H. Y., Zhou, L. Y. and Loo, J. J.</i>	
Soybean oil and linseed oil supplementation affect profiles of ruminal microorganisms in dairy cows	1562
<i>Morrison, S. J., Wicks, H. C. F., Fallon, R. J., Twigge, J., Dawson, L. E. R., Wylie, A. R. G. and Carson, A. F.</i>	
Effects of feeding level and protein content of milk replacer on the performance of dairy herd replacements	1570
Physiology and functional biology of systems	
<i>Duran-Montgé, P., Theil, P. K., Lauridsen, C. and Esteve-Garcia, E.</i>	
Fat metabolism is regulated by altered gene expression of lipogenic enzymes and regulatory factors in liver and adipose tissue but not in <i>semimembranosus</i> muscle of pigs during the fattening period	1580
Behaviour, welfare and health	
<i>Rands, S. A.</i>	
Ethical policies on animal experiments are not compromised by whether a journal is freely accessible or charges for publication	1591
<i>Ivemeyer, S., Walkenhorst, M., Heil, F., Notz, C., Maeschli, A., Butler, G. and Klocke, P.</i>	
Management factors affecting udder health and effects of a one year extension program in organic dairy herds	1596
Farming systems and environment	
<i>Lin, L. J., Luo, H. L., Zhang, Y. J., Wang, H., Shu, B. and Hong, F. Z.</i>	
The potential use of long-chain alcohols and fatty acids as diet composition markers: factors influencing faecal recovery rates and diet composition estimates in sheep	1605
<i>Conroy, S. B., Drennan, M. J., Kenny, D. A. and McGee, M.</i>	
The relationship of live animal muscular and skeletal scores, ultrasound measurements and carcass classification scores with carcass composition and value in steers	1613

journals.cambridge.org

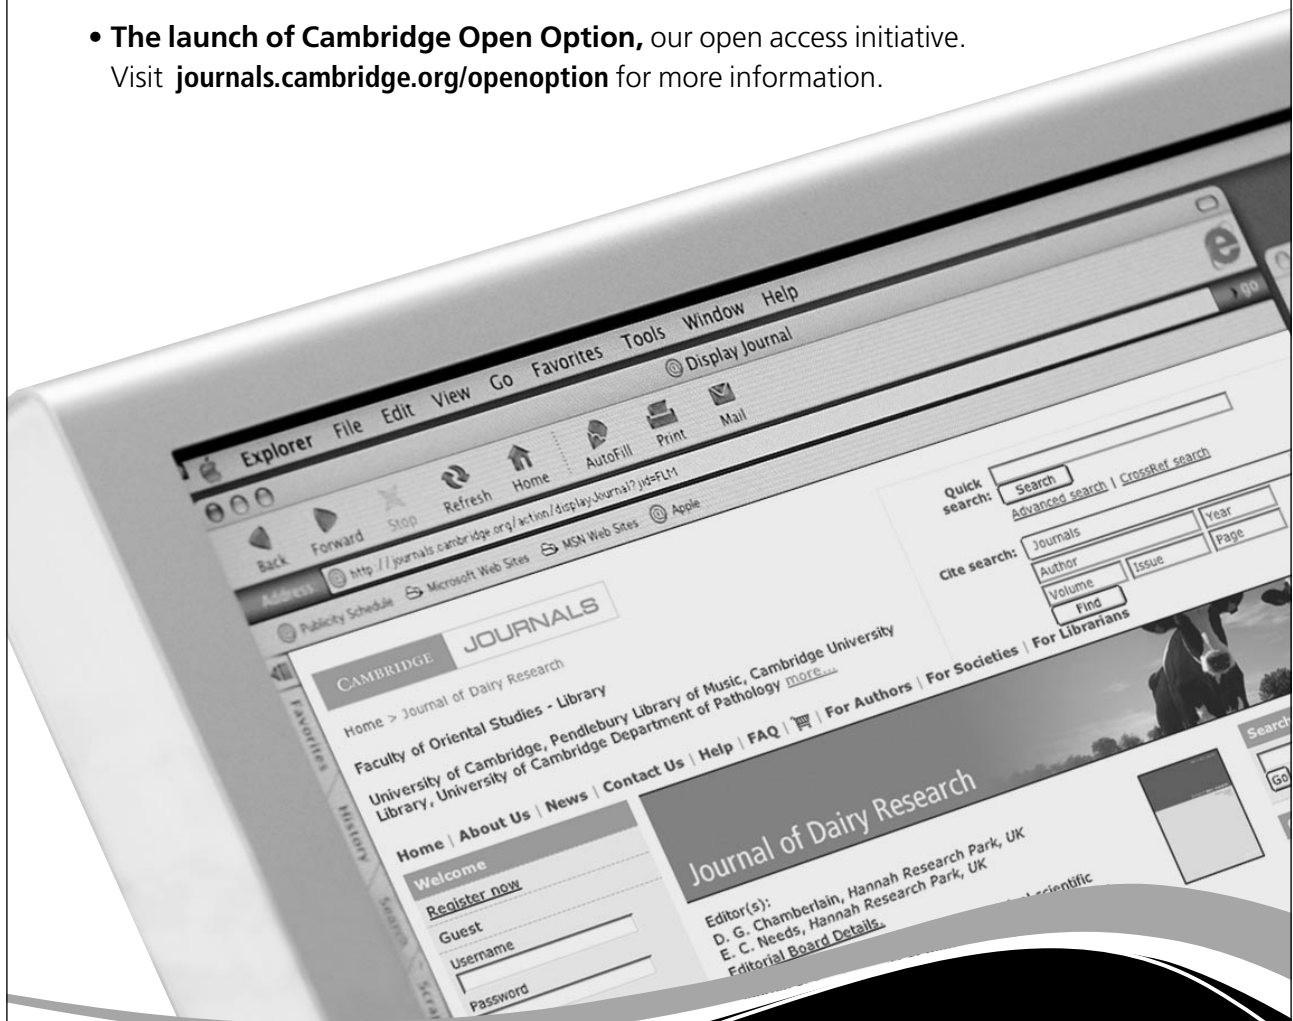

Advancing research. Increasing access.

Informed by detailed consultation with the library and research communities, we are constantly developing our industry-leading online journals platform.

Some recent advances include:

- **Refreshed site design**, facilitating rapid access to the most relevant content.
- **New advanced search interface** and a more detailed, fielded quick search function.
- **Enriched content** in the form of multimedia companions and editorial blogs.
- **The launch of Cambridge Open Option**, our open access initiative.

Visit journals.cambridge.org/openoption for more information.

Senior Executive Editor

D. J. Finnegan, University of Edinburgh, UK

Executive Editors

W. G. Hill, University of Edinburgh, UK

T. F. C. Mackay, North Carolina State University, USA

S. Xu, University of California, USA

Genetics Research is a key forum for original research on all aspects of genetics. Building on the success and history of its previous incarnation, *Genetical Research*, the journal has a publishing remit that provides comprehensive coverage of subjects vital to the field.

The breadth and quality of papers, reviews and book reviews make the journal invaluable to geneticists, evolutionary biologists, plant and animal breeders and molecular biologists.

Editor-in-chief

K. Younger, Dublin Institute of Technology, Ireland

Nutrition Research Reviews presents up-to-date, concise, critical reviews of key topics in nutritional science in order to advance new concepts and hypotheses. The journal encourages the exchange of fundamental ideas on nutritional well-being in both humans and animals.
